

6.2.1 - The institutional Strategic/ perspective plan is effectively deployed.

The Governing body has put forward several initiatives for the execution of the Strategic Plan (2019-2029), aligning with the institution's vision and mission.

The core objective of the strategic plan:

- 1. Curricular and academic enrichment:** To implement a multifaceted approach to curricular and academic enrichment and introduced diverse course offerings in vocational streams, including specialized electives and interdisciplinary programmes.
- 2. Research, Innovations and Community outreach:** To foster research culture, introduced the Research Centre for Commerce.
- 3. Physical and digital Infrastructures and educational Resources:** The seamless integration of physical and digital resources has elevated the overall learning experience, empowering students with library automation using Integrated Library Management System (ILMS).
- 4. Student Support for personal, academic and professional development:** The existing support system to strengthen partnerships with professionals to expand internship opportunities for nurturing personal, academic and professional development among students.
- 5. Improvement in Quality Systems:** To enhance quality assurance mechanisms for elevated education standards.
- 6. Sustainability consciousness:** To promote sustainability awareness across all facets of education. Noteworthy efforts have been made to implement green initiatives and have resulted in Green clean campus and has achieved and maintained relevant sustainability certifications.
