Principal

Curriculum

Objectives:

1. To enable the students to get through various competitive examinations.
2. To enable the students to acquire basics of grammatical usages.
3. To empower with the mastery of idiomatic expressions and usages in English.

Module I

- Need and scope of MESACCC202001
- Diagnostic test
- Parts of Speech
 - Noun
 - Determiners
 - The Articles
 - Pronouns
 - Adjectives
 - Adverbs
 - Prepositions
 - Conjunctions

(10 Hours)

Module II

- Subject, Verb, Object
- Verb - Different Forms of the Verb
- Concord- Subject and Verb Agreement
- Tenses

(6 Hours)

Module III

- Structure of Sentences & questions
- Active and Passive Voice
- Reported Speech
- Tag question

(4 Hours)

Module IV

- Idioms & phrases
 - Foreign phrases and expressions
 - Synonyms
 - Antonyms
 - Common errors
 - Words often confused
- (10 Hours)

Certificate course- English for Competitive Examinations

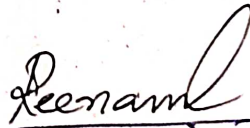

MESACCC202001

Report and Course Outcome

The certificate course English for Competitive Examinations, MESACCC202001 started on 3rd August 2020. Two batches first for second year UG, PG and third year UG and second for first year UG and PG were conducted. Due to the pandemic situation all the sessions were conducted online through the platform Google meet as per the convenience of the students. The first batch started on 3rd August 2020 and was completed on 30th September 2020. The second batch started on 7th December 2020 and was completed on 2nd February 2021. A diagnostic test was conducted at the beginning of the course to understand the level of knowledge of the students. After the thirty hours of class, more than 90% of the students got above 90% score in the final test. Mock test conducted at the end of every week helped the students to appear for the final test. Pair work and group work were given for better result. Certificates were distributed to all the 83 students as they secured above 90 percentage attendance as required by the course. The feedback of the course emphasises the fact that the learners were able to face various competitive examinations after the course.

Coordinator

Dr. Asma V M
HoD

Dr A Biju
Principal

Curriculum

Objectives:

1. Introduction to plant tissue culture.
2. Study of laboratory organization for plant tissue culture.
3. Preparation of plant tissue culture media.
4. Study of Aseptic techniques for plant tissue culture.

Module I

INTRODUCTION TO PLANT TISSUE CULTURE: Definition, brief history, principle and significance of tissue culture, Cellular totipotency, Differentiation- Redifferentiation, Organogenesis- Caulogenesis and Rhizogenesis. (3 Hrs)

Module 2

LABORATORY DESIGN: Design and layout for wash area, media preparation, sterilization and storage room, transfer area for aseptic manipulations, Culture rooms, and observation/data collection areas. Labwares, Good laboratory practices, Good safety practices. (6Hrs)

Module 3

INSTRUMENTATION: Working principle, maintenance and management of following instruments: Laminar air flow, autoclave, distillation unit, pH meter, orbital shaker, microscope, deep freezer, growth chamber Sterilization: Importance. (7 Hrs)

Module 4

ASEPTIC TECHNIQUES: Methods of sterilization of equipments, culture media and explants: -Washing and preparation of glassware's, packing and sterilization, media

sterilization, surface sterilization, aseptic workstation, precautions to maintain aseptic conditions. (4 Hrs)

Module 5

TISSUE CULTURE MEDIA: Introduction, Types of Media and its importance; Preparation of stocks, pH and Buffers and their significance in media. Media Constituents (Vitamins, Unidentified supplements, carbohydrate for energy source, Nitrogen source and organic supplements, complex substances, hormones, Activate charcoal). (8 Hrs)

Module 6

PLANT HORMONES: Role of Plant hormones (auxins, cytokinins, abscissic acid, ethylene and Gibberellins) in plant development (2 Hrs)

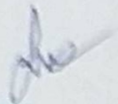

❖ Recommended Books:

1. Plant Biotechnology: The genetic manipulation of plants. 1st edition. Slater A and others, Oxford
2. Plant propagation by tissue culture: vol 1. The background. George E.F. Springer, 2007
3. Cell Culture and Somatic Cell Genetics of Plants .Indra K. Vasil. 1980. Academic Pressinc., New York.
4. In vitro culture in higher plants R.L.M. Pierik, 1987. MartinusNijhoff Publishers, Boston.
5. An Introduction to Plant Tissue Culture. Kalyanakumar De. 1997., New Central BookAgency, Calcutta

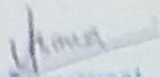

❖ Evaluation Procedures:

- Assignments and assessments: The student will be given assignments and assessments to complete, which may include quizzes, exams, lab reports, and research papers. These assignments are designed to assess the student's understanding of the concepts and principles of plant tissue culture.
- Practical skills assessment: The student will have to demonstrate practical skills learned during practical sessions through online mode. This may include the preparation of media, sterilization techniques, explant preparation, and inoculation procedures.
- Final exam: The student will be assessed through a final exam, which may be a

comprehensive exam covering all aspects of the course or a final research project.

Academic Year-2020-2021

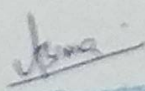

Certificate Course on Basic Techniques in Plant tissue Culture

MESACCC202002

Report and Course Outcome

Certificate course on basic techniques in plant tissue culture was conducted online mode from December 1st, 2020 to January 22nd, 2021. During the 30-day course, a total of 81 students from different UG and PG subjects participated in the program. The course on plant tissue culture aimed to provide students with an understanding of laboratory organization, and techniques of preparation of plant tissue culture media. It also aimed to provide knowledge about various Aseptic techniques used in plant tissue culture on the basis of the study of basic techniques. The students were evaluated based on assignments, practical skill assessments, and a final exam. Upon evaluation, it was found that all the students scored 90% or above marks, indicating a strong understanding of the course material. As a result, all the students who completed the course were awarded certificates. The students demonstrated excellent performance in the final exam, which validated their understanding of the theoretical aspects of the course. It was found that the students had achieved the objectives of the course in different ways. Some students demonstrated a strong understanding of the theoretical aspects of plant tissue culture, while others excelled in the practical implementation of techniques. Overall, the course was deemed successful in providing a comprehensive learning experience to the students, and they were able to apply their knowledge in different fields related to plant biology. By the end of the course, students were able to achieve the desired outcomes successfully. They developed a better understanding of laboratory organization, preparation of plant tissue culture media, and various Aseptic techniques used in plant tissue culture. This knowledge will enable them to conduct plant tissue culture experiments with confidence and proficiency.

Curriculum

Objectives:

1. To enable the students to get through competitive examinations.
2. Through cultural studies ,they could able to understand about their own history and culture
3. To enable the students to acquire basics of Malayalavyakaranam

Module I

- Varnam
- Namam
- Kriya
- Samasm
- Vakya vibagam
- Sandhy
- Beadhakam

(10 Hours)

Module II

- Malayala shylikal
- Padha shudhi
- Paryaya padhanghal
- Artha vyathyasanghal

(6 Hours)

Module III

- Silayugam
- Sankakala sahityam
- Ithinakal
- Madhya kala Keralam

(4 Hours)

Module IV

- Kerala Navothana charithram
- Pathra masikakal
- Kerala kalakal

(10 Hours)

Recommended reading

1. Rajarajavarma.A R. (1996) Keralapanineeyam
2. George Mathan. (1863) Malayazhmayude vyakaranam
3. Antony C L (1968) Kerala panineeya bhashyam
4. Sreedhara menon A (2015) Kerala samskaram,D C Books Kottayam
5. Sreedhara Menon A(2008) Keraleeya samoothathinte rupeekaranavum parinamavum,D C Books, Kottayam
6. Payyanad Raghavan (2003) Folklore

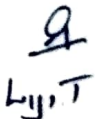

Evaluation procedure

Diagnostic test in the beginning

weekly mock test in the model of PSC examinations model

Final mcq test (PSC examinations model)

MES Asmabi College, P Vemballur
Certificate course Malayalam for PSC Examinations
Course code - MESACCC202003
2020-21
Report and Course Outcome

Certificate course Malayalam for PSC Examinations, started on 3rd August 2020. All sessions were conducted in online mode through the platform Google meet as per the convenience of the students. A diagnostic test was conducted at the beginning of the course to understand the level of knowledge of the students. After the thirty hours of class, all the 85 students got above 90% score in the final test. Mock test conducted at the end of every week helped the students to appear for the final test. Hand outs were given to the students which helped them to do more exercises. Pair work and group work were given for better result. Certificates were distributed to all the 85 students as they secured above 90 percentage attendance as required by the course. The feedback of the course emphasises the fact that the learners were able to face various examinations of Public Service Commission after the course.

Curriculum

Objectives:

1. To gain detailed knowledge about the classification of polymers and various mechanisms and technology for polymerization
2. To give a basic understanding of the properties of polymers like glass transition temperature, molecular weight and degradation of polymers.
3. To give a detailed idea about different commercial polymers.

Module I: Introduction (4 hrs)

Polymers and macromolecules – Monomers – Homo and hetero polymers – Copolymers – Classification based on origin synthesis (addition and condensation), structure (linear, branched chain and cross linked) and intermolecular forces (elastomeres, fibres, thermoplastics and thermosetting polymers)

Module II: Classification of Polymerisation (6 hrs)

Chain and step growth polymerizations – Free radical, ionic and coordination polymerizations with mechanism – Zeigler-Natta polymerization and its advantages – Ring-opening & group transfer polymerization

Module III: General Properties of Polymers (8 hrs)

Molecular weights of polymers: Average molecular weights – Number average, Weight average, Sedimentation average and Viscosity average molecular weight – determination of viscosity average molecular weight; Poly dispersity index and molecular weight distribution; Molecular weight and Degree of polymerization. Glass transition temperature – definition, factors affecting T_g, importance of T_g. Visco elasticity of polymers (Basic concepts only). Polymer Degradation: Basic idea of thermal, photo and oxidative degradations of polymers.

Module IV: Polymer preparation methods (6 hrs)

Polymerisation Techniques: Bulk, solution, suspension, emulsion, melt condensation and interfacial polycondensation polymerizations.

Module V: Polymer Processing Technique (6)

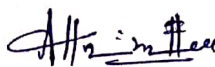

Calendering, rotational moulding, compression, injection moulding, blow moulding and thermoforming.

Evaluation procedure

- Assignments and assessments: The students will be given assignments and assessments to complete, which may include quizzes, exams, lab reports, and research papers. These assignments are designed to assess the students understanding of the concepts and principles of polymer science
- Practical skill assessment: the student will have to demonstrate practical skills learned during practical sessions through online mode. This may include the identification of everyday polymers by their physical properties, draw the structures of polymers etc.
- Final exam : The students will be assessed through a final exam, which may be a comprehensive exam covering all aspects of the course or a final research project

Academic Year 2020-2021

Certificate Course in Fundamentals of polymer science

MESACCC2004

Report and Course Outcome

Certificate course in fundamentals of polymer science was conducted online mode from December 1st 2020 to January 28th 2021. Due to this pandemic condition Covid 19, all these sessions were conducted online mode as per instruction. During the 30 –day course , a total of 82 students from different UG subjects participated in the program. The course on fundamentals of polymer science designed to provide students with an understanding of polymer laboratory organization and technique of synthesis of various polymers and its classification. The students were evaluated based on assignments, practical skill assessments and a final exam.

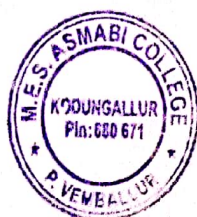

The practical sessions related to course were demonstrated via video lectures. In the evaluation, it was found that all the students qualified the examination and obtained more than 80% mark, which demonstrated that, a strong understanding of course material and course design. It was found that the students had achieved the objectives of the course in various ways. Some students depicted a strong understanding of theoretical aspects of polymer science, while others demonstrated in the practical implementation of techniques.

Overall, the course was deemed successful in providing a comprehensive learning experience to the students, and they were able to apply their knowledge in different fields related to polymer science. By the end of the course, students were able to gained the desired [outcomes successfully. Also a certificate of competition of the course was given to the qualified students.

Certificate Course

INTELLECTUAL PROPERTY RIGHTS (IPR)

Course Design

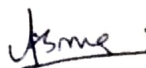

Intellectual Property Rights (IPR) have become one of the crucial issues of concern in the contemporary relations among nations. Central to such a concern has been the level of protection sought/contested on the rights rendered in recognition of the intellectual input/creativity underlying and invention or an artistic expression. Intellectual Property (IP) is an important and effective policy instrument relevant to a wide range of socio-economic, technological and political concerns. Our programme helps students to understand the implications of patents, copyrights, design, trademarks, and geographical Indications.

Aims and Objectives

- To bring innovation and excellence in teaching and research.
- To generate critical awareness among students, teachers and the younger generation on the correlation between technology and society.
- To promote interdisciplinary approach in teaching and research, as well as to make it socially relevant.
- To promote a high degree of awareness on intellectual property rights in general and in particular patents, trademarks, copy right, traditional knowledge and geographical indications which have become crucial concerns to society at the local, regional, national and international milieu.
- To give a direction to identify issues and concerns at local/regional/global problems through training of the required human resources.

REPORT OF CERTIFICATE COURSE ON INTELLECTUAL PROPERTY RIGHTS

RESEARCH AND PG DEPARTMENT OF BOTANY

Academic Year 2020-2021

Name of the Certificate Course : Certificate Course on Intellectual Property Rights

Course Duration : 30 Hrs

Total number of students enrolled : 85

Mode of course conducting : Online and Offline classes

Date of Introduction : 12/10/2020

The certificate course on intellectual property rights was started on 12th October, 2020. A total of 85 students from different streams were admitted, and all of these students completed the course and qualified for certification. The online classes were provided through Google meet. All the theory classes were completed by January 29, 2021. The internal and external evaluations had been completed, and the results were published on March 03, 2021. A certificate of completion of the course was given to all the qualified students.

Course Outcome (Focus on Employability/Entrepreneurship)

The primary function of intellectual property rights (IPRs) is to protect and stimulate the development and distribution of new products and the provision of new services based on the creation and exploitation of inventions, trademarks, designs, creative content or other intangible assets. This certificate Course helped the students to distinguish and explain the various forms of IPRs. The most important of course outcome is that the students can identify criteria's to fit one's own intellectual work in particular form of IPRs and they can apply statutory provisions to protect particular form of IPRs. They also able to Identify the procedure to protect different forms of IPRs national and international level and also they developed skill of making search using modern tools and techniques.

REPORT AND OUTCOME OF THE COURSE

Post-graduate and Research Department of English conducted Certificate Course titled “English Grammar and Phonetics” for the students of UG level. Forty-five students and Forty students in 2 batches enrolled for the course. The course officially began in the month of July 2020 and continued till January 2021. The course stucked on to the syllabus prescribed and shed light on varied aspects of functional grammar and sound systems in English.

OUTCOME:

1. The course benefitted the students with diverse domains of structural grammar.
2. The students were given exposure to practical application of grammar in spoken and written forms.
3. Course helped the students to understand the sound systems in English.
4. Students could transcribe and pronounce the words correctly.

Course Syllabus

Environmental Studies

Objectives:

1. To enable the students to understand the importance of Environment.
2. To enable the students to make reflective thoughts on the need for environmental consciousness.
3. To make them pass on their awareness to the public as a responsible citizen.

Module I

Introduction:

- Need and scope of Environmental Studies
- Diagnostic test
 - A Retrospection on Natural Disasters
 - Landslides, earthquakes
 - Climate change, Global Warming
 - Extinction of Animals
 - Imbalance and in equilibrium
 - How to prevent imbalance and protect environment

(10 Hours)

Module II

- Deep and Shallow Ecology
 - Anthropocentric Orientation and its disorientation
 - Conservation of wild life
 - Rachel Carson and Environmental studies
- (6 Hours)

Module III

Disaster management
UNCED and Development
Environmental Education

(4 Hours)

Module IV

Ecological pyramids

a) Pyramid of number

b) Pyramid of biomass

c) Pyramid of energy

Environment and Literature

Eco Criticism

(10 Hours)

Report and Course Outcome

Certificate Course On Environmental Studies was started with the objective of creating a new generation who are conscious of the close relationship between man and environment and the essential role of environment in the existence of human beings. The Course was started on the online mode during the pandemic as its relevance was more felt at that time. 30 classes were conducted with 60 students from different batches. Various assignments on Deep and shallow Ecology, Disaster management etc. were done. Most of the students participated with full vigour and more or less scored full in the tests conducted. Attendance was marked during the google meet . It was completed in December 2020 and Certificates were issued online

Course Syllabus

Certificate course-Four Skills of Communication

Objectives:

1. To enable the students to use the language with fluency, appropriate diction and idioms
2. To enable the students to acquire basics of Suprasegmental features of spoken English
3. To empower with the mastery of rhetoric in public speech, using language confidently in interviews

Module I

Introduction:

Need and scope of CCCE

Diagnostic test

Problems of being a second language learner

Possible approaches and solutions

Parts of Speech

Subject, Verb, Object

Verb - Different Forms of the Verb

Subject and Verb Agreement (Singular and Plural Forms of Nouns and Verbs)

Tenses and role of verb in it

Use of idioms and phrases

Structure of a Sentence

Structure of a Question

Use of Active and Passive Voice, Reported Speech and Tag question in communication

Use of courteous language

Module II

(7 Hours)

PHONETICS

Vowels ---Diphthongs --- Consonants --- Points of Articulation of Sounds- Connected speech with intonation

VOCABULARY

Introduce common place expressions of language -- Different Forms of the Verb ---
Specimens of Situational Conversations, Phrases, Sentences and Questions --- Synonyms ---
Antonyms --- Miscellaneous.

Familiarize students with language lab

Identification of sounds or words including pronunciation of digits.

Announcements during event management, stage shows and ceremony

Practice sessions of conversations, Story building, Narration, Translation etc.

Group Discussion

Works to enhance reading skills

(13 Hours)

(Note: Students are advised to keep an Oxford Advanced Learner's Dictionary)

Module III

(Individual Work)

Speech and patterns of rhetoric

Self introduction

Mock interview

Practice in formal speech

Pick and Choose activities

(10 Hours)

Curriculum

Objectives:

1. Develop a comprehensive understanding of theoretical accounting concepts and their practical application.
2. Acquire proficiency in using popular accounting software applications for computerized accounting practices.
3. Apply accounting principles and software skills to accurately record and analyse financial transactions.
4. Generate and interpret financial reports using accounting software for informed decision-making.
5. Enhance employability prospects by gaining practical skills in computerized accounting practices.

Module 1: Theoretical Accounting Fundamentals (10 hours)

- Introduction to Accounting: Basic concepts, principles, and objectives of accounting
- Types of Accounts: Assets, liabilities, income, and expenses
- Double Entry System: Understanding debits and credits, journal entries, and ledger accounts
- Financial Statements: Preparation and interpretation of balance sheet, income statement, and cash flow statement

Module 2: Computerized Accounting Principles (10 hours)

- Introduction to Computerized Accounting: Advantages and benefits of computerized accounting systems
- Accounting Software Overview: Understanding popular accounting software applications (e.g., QuickBooks, Tally)
- Chart of Accounts: Creating and managing charts of accounts in accounting software
- Recording Transactions: Entering, editing, and deleting transactions in the software
- Bank Reconciliation: Performing bank reconciliation using accounting software
- Financial Reporting: Generating financial reports (balance sheet, income statement) using accounting software

Module 3: Practical Application of Computerized Accounting (10 hours)

- Company Setup: Creating and managing company profiles in accounting software
- Inventory Management: Recording and tracking inventory using accounting software
- Payroll Management: Handling employee payroll calculations and generating pay slips
- Budgeting and Forecasting: Creating and managing budgets and forecasts in accounting software
- Fixed Assets Management: Recording and depreciating fixed assets using accounting software

- Data Security and Backup: Understanding data security measures and backup procedures
- Troubleshooting: Identifying and resolving common issues in computerized accounting systems

Recommended reading

1. Accounting All-in-One for Dummies (2014) by Kenneth Boyd, Lita Epstein, Mark P. Holtzman, Frimette Kass-Shraibman, Maire Loughran, Vijay S. Sampath, John A. Tracy, Tage C. Tracy, Jill Gilbert Welytok
2. Overview of Computerised Accounting System (2020) NCERT

Evaluation procedures

- Practical exercises and hands-on training should be incorporated throughout the course.
- Assessments and quizzes can be conducted after each module to evaluate the learners' understanding.
- Final practical examination to assess learners' proficiency in using the chosen accounting software. This test can involve tasks such as entering transactions, generating financial reports, and performing bank reconciliations.

Certificate Course- Computerised Accounting Practices 2020-21

MESACCC202014

Course Report: Certificate Course in Computerized Accounting Practices

I. Introduction

The Certificate Course in Computerized Accounting Practices was conducted from April 19 to 24, 2021, to provide students from the Research Department of Commerce with comprehensive knowledge and practical skills in computerized accounting. The course aimed to equip participants with theoretical accounting fundamentals, proficiency in popular accounting software, and practical application of computerized accounting principles. Due to the COVID-19 pandemic, the course was conducted online to ensure the safety and well-being of the participants.

II. Course Details

- Course Duration: April 19 - 24, 2021
- Course Name: Certificate Course in Computerized Accounting Practices
- Duration: 30 hours
- Participants: 80 students from the Research Department of Commerce
- Mode of Delivery: Online

III. Course Objectives

The course had the following objectives:

1. Develop a comprehensive understanding of theoretical accounting concepts and their practical application.
2. Acquire proficiency in using popular accounting software applications for computerized accounting practices.
3. Apply accounting principles and software skills to accurately record and analyse financial transactions.
4. Generate and interpret financial reports using accounting software for informed decision-making.
5. Enhance employability prospects by gaining practical skills in computerized accounting practices.

IV. Course Curriculum and Methodology

The course was divided into three modules, each with a duration of 10 hours. Module 1 focused on theoretical accounting fundamentals, Module 2 covered computerized accounting

principles, and Module 3 emphasized the practical application of computerized accounting. The course curriculum included lectures, demonstrations, practical exercises, and hands-on training to provide a comprehensive learning experience. Participants were also given opportunities to ask questions, engage in discussions, and collaborate with fellow learners through online platforms.

V. Course Delivery and Online Mode

The online mode of course delivery consisted of live virtual sessions using video conferencing tools, such as Google Meet or Microsoft Teams. The course instructors utilized presentation slides, screen sharing, and interactive whiteboards to deliver lectures effectively. Participants were provided with electronic course materials, including lecture notes, reference materials, and software guides. Additionally, participants were given access to the chosen accounting software to practice their skills and complete practical exercises.

VI. Assessment and Evaluation

To evaluate the participants' progress and understanding, a comprehensive assessment approach was adopted. The evaluation included the following components:

1. Theory Assessment: A written examination was conducted to assess participants' understanding of theoretical accounting concepts covered in Module 1.
2. Software Proficiency Test: A practical examination tested participants' proficiency in using the accounting software introduced in Module 2.
3. Practical Assignments: Participants were assigned practical exercises related to Module 3 topics, allowing them to apply their software skills in real-world scenarios.
4. Case Study Analysis: Participants were given a case study that required them to analyze and interpret financial data using their theoretical knowledge and software skills.
5. Overall Performance Assessment: Participants' overall performance, including participation, engagement, and completion of assignments, was considered in the evaluation.

VII. Conclusion

The Certificate Course in Computerized Accounting Practices provided valuable knowledge and skills to the 80 participants from the Research Department of Commerce. Despite the challenges posed by the COVID-19 pandemic, the online mode of course delivery ensured continuity in education and enabled participants to develop proficiency in computerized accounting practices. The course curriculum, coupled with comprehensive assessment methods, allowed participants to gain theoretical and practical expertise in accounting principles and software applications.

Name of Course	:	Office Automation and Online Documentation Tools
Course Code	:	MESAC202016
Corse Coordinator & HoD	:	Ms. Jabin T H, 9747724640, jabiriyas@gmail.com
Max. No. of Students	:	100
Duration of course	:	48 hours (20T + 28P)
Level	:	UG/PG
Teaching Methodology	:	Group work, Individual work, Lab work, Direct Teaching.

Curriculum

Objectives:

- To enable students familiar Internet and online documentation and image editing tools
- To equip students to acquire basic knowledge in Office Automation Tools

Office Automation and Online Documentation Tools

Unit I (2T+6L)

- Need and Scope of MESAC202016
- Diagnostic Test

Introduction to Computers: Types of Computers - Desktop, Laptop, Notebook and Netbook. System - Software Computer Languages, Features of good language.

Basics Computer Organization: Input Unit, Output Unit, Storage Unit, Control Unit, Primary Storage, Secondary Storage Devices.

Networks - LAN, WAN - Client – Server. Basics of Web Design – www, W3C, Web Browser, Web Server, Web Hosting, Web Pages, DNS, URL

Online Documentation Tools: PDF document creator, Converter, Image editors.

UNIT II (6T+10L)

Documentation Using a Word Processor (OpenOffice Writer / M.S. Word) - Introduction to Office Automation, Creating & Editing Document, Formatting Document, Auto-text, Autocorrect, Spelling and Grammar Tool, Document Dictionary, Page Formatting, Bookmark, Advance Features - Mail Merge, Tables, Printing, linking and embedding object, Template.

UNIT III (6T+10L)

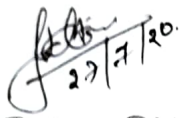

Electronic Spread Sheet (OpenOffice Calc/MS-Excel) - Introduction to Spread Sheet, Creating & Editing Worksheet, Formatting and Essential Operations, Formulas and Functions, Charts, Advanced features – Pivot table & Pivot Chart, Linking and Consolidation.

UNIT IV (2T+6L)

Presentation using (OpenOffice Impress/MS-Power Point): Presentations, Creating, Manipulating & Enhancing Slides, Organizational Charts, Charts, Word Art, Animations and Sounds, Inserting Animated Pictures or Accessing through Object.

MESAC202016

Report & Course Outcome

The Certificate Course Office Automation and Online Documentation Tools (MESAC202016) started on 10th August 2020 in two batches for 1st, 2nd and 3rd Year UG students. Due to the Pandemic situation all sessions of the course were conducted online. The time was scheduled according to the convenience of the students as regular classes are also conducting online at that time with a duration of 1 to 1 ½ Hrs. The lab works are also done using online tools. The first batch started on 10th August 2020 and was completed on 30th September 2020. The second batch was commenced on December 14, 2020 and came to an end on 21st of January. A diagnostic test was conducted at the starting to know the knowledge level of the students, and according to that analysis we arranged the course. After the completion a final test was conducted and all the students secured good score in the test. Pair work and group work helped the students to improve the knowledge and skill level. Certificates were issued for all 85 students after the course as they passed the examination and secured more than 80% of the attendance. The course feedback is that the students can do their online tasks given by the teacher in a better way.

DEPARTMENT OF MASSCOMMUNICATION AND JOURNALISM

SYLLABUS AND COURSE PLAN
(Academic year 2020-21)

Course name: Introduction to Advertising theory and practices
Course code: ADTP
Course fee: 850

Duration: 30Hrs (To be engaged as offline sessions after routine classes of regular programmes on week days and as special offline/online sessions)
Intake: 84 Students
Workshop: one day
IV to ad agency: Depending on corona status. Extra travel expense will be levied

COURSE OBJECTIVE/SCOPE:

- The course aims to develop your understanding of advertising as an element of marketing communications, of how the advertising planning process is managed, and the various factors affecting decision-making in this area. On completion of the course, you should be able to understand principles and components of television, radio, and print ad and the process of making ad.

COURSE OUTCOMES:

- Understand what advertising is and its role in advertising and brand promotion and the economic effects of advertising.
- Understand the structure of the advertising industry.
- Be able to identify, analyse, and understand the advertising environment.
- Be able to prepare the advertising message and fully integrate the creative process.
- Understand the importance of placing the message in conventional and "new" media.
- Be able to identify, understand, and prepare advertisements.

REPORT AND OUTCOME

DEPARTMENT: MASSCOMMUNICATION AND JOURNALISM
NAME OF THE CERTIFICATE COURSE: INTRODUCTION TO ADVERTISING THEORY AND PRACTICES
COURSECODE: ADTP
NAME OF THE CORDINATOR: NAJMA NAZEER
HEAD OF THE DEPARTMENT: SUNAINA M NAZAR
MAXIMUM STUDENTS: 84
DURATION OF COURSE: 30 HRS
LEVEL: UG

ABOUT THE COURSE:

The course aims to develop your understanding of advertising as an element of marketing communications, of how the advertising planning process is managed, and the various factors affecting decision-making in this area. Whole course is organised into four modules. Each module tries to shed light on challenging topics and offer insights that are of considerable value for advancing students' knowledge. On completion of the course, you should be able to understand principles and components of television, radio, and print ad and the process of making ad.

This course is mainly focused on students from different streams other than mass communication and journalism, who somewhere aspires to become a part of advertising industry. The whole module was divided into three and was handled by Sunaina M Nazar, Najma Nazeer, Sumayya K I. We had batch of 84 wonderful students who completed the course with high marks. Though we had plan for I V to an ad agency it didn't work out due to the crisis caused by pandemic covid -19. Apart from that we can proudly announce the successful completion of certificate course

TEACHING METHODOLOGY:

- 1) ICT Integrated classroom and practical
- 2) Virtual class, group discussion
- 3) PPT, VIDEOS, LINKS TO WEB RESOURCES,

Najma Nazeer

CERTIFICATE COURSE IN
LIFE SKILLS, SEXUALITY & PERSONAL SAFETY EDUCATION
(COURSE CODE: MESACCC202018)

Certificate course in Life Skills, Sexuality & Personal Safety Education
Duration-30 hours

Objectives :

- Encourage students to explore the need for learning life skills in order to live a fulfilling and joyous life.
- Understand the difference between sex and sexuality.
- Learn and demonstrate Presentation and public speaking skills

Total intake-70 students

Infrastructure required- A 500 sq. Ft area which has electric supply with proper ventilation
Required-LED projector, Blackboard/whiteboard, Clips, duster, movable chairs, closable doors, proper lights, Drinking water

Participants-Under Grad students

SYLLABUS

Workshop1

(5 hours)

Decision making, problem solving and conflict resolution; critical and creative thinking i. What is a decision? What is a choice? Psychology of choosing. ii. Making a decision. Problem solving. Domination and power. Responsibility iii. Conflicts – why conflicts arise. How people form opinions. Cost of conflicts. Methods of dealing with conflicts – using critical and creative thinking iv. Critical thinking – blocks to critical thinking v. Creative thinking. Brain and creativity. Developing creativity.

(Peer group Session-1 hour, Assignment)

Workshop2

(5 hours)

Empathy, relationships and interpersonal intelligence i. Empathy and relationships – psychological perspectives ii. Brain and empathy centre, science of bonding iii. Development of a relationship, stages of relationships iv. What is a relationship? Basis for a nurturing relationship v. Respect, power and obedience *(Peer group Session-1 hour, Assignment)*

Workshop3**(5 hours)**

Gender constructs and gender empowerment i. Psychology of gender and formation of identity ii. How many genders? Why? Genetics of gender iii. Intersex and transgender iv. Gender : why biased? Tracing the origin of gender bias v. Gender empowerment

(Peer group Sessions – 1 hours , Assignment, Mentor Training Sessions 2 hours)

Workshop4**(5 hours)**

Empathy, relationships and interpersonal intelligence i. Empathy and relationships – psychological perspectives ii. Brain and empathy centre, science of bonding iii. Development of a relationship, stages of relationships iv. What is a relationship? Basis for a nurturing relationship v. Respect, power and obedience

(Peer group Session-5 hours, Assignments, Mentor Training Sessions 2 hours)

Assessment & Rules

Assessment Assignment	Assessment Quality	Marks
Self-Reflection Creating ice breaker session	The student should be able to perform I both contexts without any hindrance in performance should stick to the script	25 Marks
Creation of a Theme	The student creativity covering up all the content	25 Marks
Tools and Resources	Understanding level of student about the use of the Authentic tool collection and Purposes.	25 Marks

ICT Tools	Each student must over the course make presentations on topics they have learnt in the program. Grading and assessment of the same will be carried on. Feedback is provided to help students sharpen skills.	25 Marks

COURSE OUTCOME REPORT

A certificate course in life skills, sexuality and personal safety education was conducted by the Department of Psychology, MES Asmabi College, P.Vemballur. The total course duration was of 30 hours, which was conducted on 15 days with 2 sessions on each day, starting from 1ST December 2021. The aim of the certificate course was to The students will be able to Enhance their self esteem, and skills required to build nurturing relationships and lead creative, fulfilling lives. Share their knowledge on gender, sexuality, reproductive rights and responsibilities, thereby participating in building a safe and compassionate society and to Diagnose problems, generate, and choose between multiple solutions, and evaluate out-comes in the area of reproductive health and personal safety. 70 students from various departments of MES Asmabi College, has attended and completed the course effectively.

All the 32 students, who registered for the course has attended each and every session without any fail. Session are conducted online through google meet. The students were assessed using practical online presentation sessions. The assessment proved that the certificate course was very much effective in enhancing their self-confidence and positive self-image. Almost all of the students could perform very well on the presentation task. It was also seen that their way of communication and use of non-verbal skills has improved noticeably.

The course outcome intended to develop their Students will derive the skills a person needs in order to interact with others effectively, make decisions and resolve conflicts while staying true to humane values. Students will study the differences between men and women psychological and behavioural and their link with successful reproduction. Discuss gender constructs and the origin of gender bias as also how we can move towards an empowered society and to Gain experience in presentation, public speaking and facilitation skills.

Assessment of their course was conducted very well by giving them proper assignments and increasing their dynamics by group discussion and involvement appropriately. The final Assessment was conducted by Presentation of the given task and to act as a trainer in the field. All students showed an excellent performance in their level.

Coordinator : SHIJITH S Shijirejish@gmail.com
Head of the Department: SHAHIJA V A
Maximum number of students: 68
Duration of the course: 30 HOUR
Level of students: UG and PG
Teaching methodology : online class through Google meet, Zoom
Teaching aids : Ppt, you tube videos, pdf

CURRICULUM

Objectives

1. To understand the basic concepts of digital marketing
2. To provide necessary skill sets to create a successful online marketing strategies

SYLLABUS

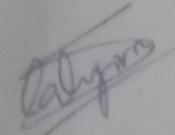

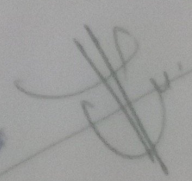

Module 1: Introduction to Digital marketing-Defintion-importance-benifits- The goals behind creating a website-The responsibilities of a digital marketer-Introduction to online advertising-various revenue models-creating a successful digital marketing strategy

Module 2: Website planning and analysis-website development trends-definition and importance of domain names and extensions-best hosting servers-server types-content management system-website objectives-steps in website creation-SEO audit

Module 3: Social media marketing-introduction to social media marketing-techniques for achieving high user achievement-importance of building a community-promotion methods-creating successful branding strategy on social media

Evaluation procedure

1. Module wise exam
2. Module wise assignments

CERTIFICATE COURSE IN DIGITAL MARKETING

Report and course outcome

The certificate course in DIGITAL MARKETING started on 16/8/2021. There is 68 students were enrolled. Students of both second year and third year students were enrolled. 75 % of the syllabus were arranged in practical session. And also majority of the classes are arranged in the evening after regular classes. 30 hours were scheduled for this course. Monthly test can be conducted at the end of every month. Pair work and group work were given. After 30 hours more than 90 % of the student got above 80% score in final test. Certificate was distributed to all of the 68 students as they secure above 80% attendance as required by the course. This course helps to understand the basic concept of digital marketing.

Certificate Course 2020-2021 :: Syllabus

CODE: MESACCC202020 & CODE: MESACCC202032

PART II MATHEMATICS

Module I (4 marks) Calculus: Relations, functions, limits, continuity, differentiation, indefinite integral and definite integral, First order differential equations.

Module II (4 marks) Number theory and Algebra. Divisibility of numbers, prime factorisation, GCD, LCM, division algorithm, Euclidean algorithm, congruences- linear congruences, Euler's totient function, Little Fermat's theorem, Euclid's theorem - its applications. Polynomials, factorisation, roots, Groups- cyclic groups, permutation groups

Module III (4 marks) Linear Algebra Linear equations, matrices and determinants, vector space, linear dependence, linear independence, basis, dimension. Linear transformations, matrix of linear transformation, rank, nullity, characteristic equation, characteristic values, diagonalization.

Module IV (4 marks) Real Analysis: Properties of real numbers, countability, sequence of real numbers and its convergence, series of real numbers and its convergence, Riemann integral, double integral and triple integral.

Module V (4 marks) Complex Analysis Complex Numbers, Analytic functions, power series, line integral, Cauchy's integral formula, Cauchy's theorem, singularities, Laurent series, harmonic function.

PART III STATISTICS

1. Descriptive Statistics: Measures of central tendency, Absolute and relative measures of dispersion, Skewness, Kurtosis, Principle of least squares and fitting of curves, Correlation and Regression, Partial and Multiple correlation. (Marks: 2)

2. Probability theory: Definitions, Addition theorem, Multiplication theorem, Conditional probability and Bayes' theorem. Theorem of total probability – Random variables, expectation, moments, generating functions -sequences of random variables and independence of random variables. Law of large numbers, Central limit theorem and its applications. (Marks: 4)

3. Distribution Theory: (i) Discrete distributions – Binomial, Poisson, Geometric, Negative binomial, Hyper-geometric and Multinomial distributions; (ii) Continuous distributions- Uniform, Exponential, Gamma, Beta, Normal, Log-normal, Logistic, Weibull, Pareto and bivariate normal distributions; (iii) Sampling distributions: Student's t, F and Chi-square distributions. (Marks: 4)

4. (i) Estimation: Basic properties of estimators, concepts of sufficiency, UMVUE and completeness, Methods of estimation. (ii) Tests of Hypotheses – Two types of errors

significance level, size and power of a test, Tests based on normal, t, Chi-square and F distributions. (Marks: 2)

5. Sampling Theory: Various methods of sampling – Simple random sampling, Stratified random sampling, systematic sampling, PPS Sampling, cluster sampling, adaptive sampling, Ratio and Regression methods of estimation. (Marks: 2)

6. Design of Experiments: Basic properties of experimentation, ANOVA, CRD, RBD, LSD, Factorial designs, BIBD, Split-plot designs. (Marks: 2)

7. (i) Vital Statistics: Rates and ratios of vital events, Mortality and fertility, Measurement of mortality and fertility, Central mortality rate. (ii) Time series analysis: Economic time series and its different components, Additive and multiplicative models, Determination of trend, Construction of seasonal indices. (Marks: 2)

8. (i) Economic statistics; Index numbers, its definitions, applications, price relatives, link and chain relatives. Use of averages: Simple aggregative and weighted average methods, Laspeyre's, Paasche's and Fisher index numbers, Time and factor reversal test of index numbers. (ii) Official statistics: Introduction to Indian Statistical systems, CSO, NSSO, Census, National income statistics, Methods of national income estimation. (Marks: 2)

REPORT AND COURSE OUTCOME

The Department of Mathematics and Statistics launched a certificate course on December 12th, 2020 with the title "kpsc Statistics & Mathematics" for the preparation of upcoming Kerala PSC statistical assistant examination. 61 PG students were attended the course and it was very helpful to them. Two Mathematics teachers and one statistics teachers were handled the corresponding subject classes. The class ended with a mock test on 31/03/2021. Conducted a online class to solve previous year question paper on 2021 April 5,6,7 and May 11,12,26,27,28. It was the most powerful section of this course. On 1st june 2021, Nasreen A, the head department of Mathematics distributed the course attending certificate to the students.

REPORT OF CERTIFICATE COURSE ON FINANCIAL ANALYSIS MESACCC202024

The certificate course started on June 2020. It has 2 batches which consist of 2 & 3 years in first batch and 1st years in 2nd batch. 1st batch includes 43 students. And in second batch there are 45 students. Google meet is used to deliver the lectures. So many videos and links have provided for the students to enhance their knowledge in the specific area. Sales manager from various financial institutions shared their videos for our students. Two exams were conducted, all of them secured above 50%. The top scorer is from M.Com Marketing class, Nima got 50 & 55 in her exams. The result shows that the students achieved their results.

Communicative Skill Development in Hindi 2020-21

Report and Course Outcome

The first batch of the certificate course of Communicative Skill Development in Hindi started on 11th January 2021. 5 sessions were conducted in room no.25 and the rest of the classes were conducted online through the platform Google meet as per the convenience of the students. A diagnostic test was conducted at the beginning of the course to understand the level of knowledge of the students. After the thirty hours of class, all the 50 students got above 90% score in the final test. Mock test conducted at the end of every week helped the students to appear for the final test. Hand outs were given to the students which helped them to do more exercises. Pair work and group work were given for better result. Certificates were distributed to all the 80 students as they secured above 90 percentage attendance as required by the course. The feedback of the course emphasises the fact that the learners were able to develop their Communicative Skills In Hindi .

Certificate Course: Basics of Web Design and MS Office

Report & Course Outcome

The Certificate Course Basics of Web Design and MS Office (MESACCC202027) started on 1st August 2020 in two batches for 1st, 2nd and 3rd year UG students. Due to Pandemic situation all sessions of the course were conducted online. The time was scheduled according to the convenience of the students as regular classes are also conducting online at the time with a duration of 1 ½ Hrs. The lab works are also done using online tools. The first batch started on 1st August 2020 and was completed on 30th September 2020. The second batch was commenced on December 14, 2020 and came to an end on 21st January. A diagnostic test was conducted at the starting to know the knowledge level of the students, and according to that analysis we arranged the course. After the completion a final test was conducted and all the students secured good score in the test. Certificate were issued for all 85 students after the course as they passed the examination and secured more than 80 % of the attendance. The course feedback is that the students can do their online tasks given by the teacher in a better way.

PROPOSAL FOR

**Certificate Course on "Preparation and the Execution of the Project"
2020-21**

Total hrs: 30

COURSE DESCRIPTION

This course is focusing on to develop the research aptitude among the students as a part of their project. The important part of the course is to familiarize the students about the process of project preparation with special attention to the review of the literature, Data collection and the usage of analytical tools needed for the execution of the project. The first part of the course will develop skills in the selection of the problem and the review of the appropriate theoretical and empirical studies. In the second part of the course, we will travel through the data collection method and the analytical tools.

This course is designed to familiarize students with economic tools and techniques that are used in project preparation and execution. The class will help the student's to understand the methods and methodologies that are used in the field of social science.

COURSE OBJECTIVES

Students will be able to:

1. Know the importance of research in the various fields.
2. Understand the process of research design that are used in the project
3. Develop the analytical skills that will enable students to execute the project.

WEEK 1. (5 hrs)

Research: Introduction

Types of Research, Need of Research

Review of literature

WEEK 2. (5 hrs)

WEEK 2. (5 hrs)

Types of data, Data Collection Methods

Week 3 (5 hrs)

Data tabulation, Data presentation

Week 4 (5 hrs)

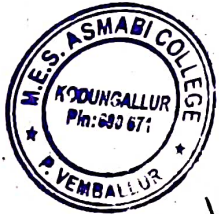

Introduction of Analytical Tools, Measures of Central Tendency, and Dispersion

Week 5 (5 hrs)

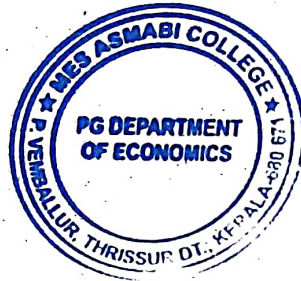

Introduction to software and interpretation of the data.

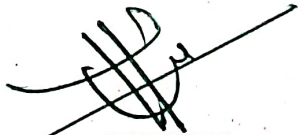

Week 6(5 hrs)

Writing of the project

CERTIFICATE COURSE ON PROJECT PREPARATION AND EXECUTION
COURSE CODE: MESACCC202008
REPORT AND COURSE OUTCOME

The certificate course introduced by the department of Economics was started on July 20th 2021. There were almost 65 students as the participants and classes were given both in online and offline mode. In the sixth semester of degree course there have a project in the syllabus and the students actively participated in the course. The course included 30 hrs of class and after the course, all the students got above 85% score in the final test. Mock test was also conducted by the department which helped the students to attain good marks in the final test. Certificates were also distributed to the students as they secured 90 % attendance as required by the course.

**CERTIFICATE COURSE IN LOGISTICS MANAGEMENT
CURRICULUM & EVALUATION PROCEDURE**

COURSE TITLE : CERTIFICATE COURSE IN LOGISTICS MANAGEMENT

HOURS :30

MODULES : 3

OBJECTIVES:

- To familiarize students with the warehouse operations and management

Module – I

Introduction to Warehousing: Functions – Operations – Benefits-Need for warehousing – Issues affecting warehousing – Different types of ware houses –
-Leading warehouse companies in india

10 hours

Module – II

Introduction to Inventory Management: Objectives - Benefits of managing inventory - Types of inventory – WIP inventory – Finished goods inventory – MRO inventories – Cost of inventories

10 hours

Module – III

Warehouse Management Systems: Introduction – The necessity of WMS –

Logics of determining locations and sequences – Uncertainties in material management systems

10 hours

ASSESSMENT PROCEDURE:

Diagnostic test in the beginning

MCQ PATTERN

20 questions with 2 marks each

WINNING PERCENTAGE: 40%

COORDINATOR: Abdul Yafiz K.M

HEAD OF THE DEPARTMENT: Abdul Yafiz K.M

Teachers in charge	:	Keerthana S V, Fahadali P H, Sabeena P A
Max. No of Students	:	100
Duration of the course	:	30 hrs
Level	:	UG/PG

Evaluation:

1. Course end examination-50 marks
2. Assignment/ Continuous Evaluation-30 marks
3. Class attendance-20 marks

Criterion for issuing certificate:

Separate minimum of 40% is required in items 1,2,3 of the above-mentioned components.

Course Objectives:

1. Understand and explain the importance of critical thinking;
2. To overcome or solve the problems occurring in our everyday life.

Course Outcome:

1. Apply numerical and reasoning skills in competitive examinations.

Course Content:

Module – 1

Numerical Ability: (18 Hours)

Data Interpretation (Bar Graph, Line Chart, Tabular, Pie Chart), Square and square roots, Laws of exponents, LCM, HCF, Number Series, Simplification and Approximation, Percentages, Average, Ratio and Proportion, Partnership, Profit and Loss, Simple Interest & Compound Interest, Problem on Ages, Data Sufficiency, Speed, Distance & Time, Work, Time & Wages.

Module – 2

Reasoning Ability: (12 Hours)

Advance Puzzles, Seating Arrangements, Distance & Direction, Blood Relations, Syllogism, Order and Ranking, Coding-Decoding, Machine Input-Output, Alphabet and Number Series, Analogy.

Report and Course Outcome

The two batches of the certificate course 'Developing Listening and Speaking Skills' MESACCC202033 started on 16th July 2020. Classes were conducted online through the platform of Google Meet as per the convenience of the students. Videos related to the topics were streamed through online mode. A diagnostic test was conducted at the beginning of the course to test the previous knowledge of the enrolled learners. After the completion of 30 hours of class. All the 82 students scored above 93% in the final test. Mock test conducted at the end of every week helped them to score for the final test. Worksheets were provided through online to help them to do more exercises. Certificates were distributed to all 82 students as they secured 90% attendance as required by the course. The feedback of the course emphasizes the fact that the students were able to speak in public without errors and developed a skill in listening too, thereby improving communication skills.
