EXHIBITION IS CONDUCTED ON AUDITORIUM

The women empowerment workshop equipped students with essential skills, confidence, and a supportive network, fostering their personal and professional growth. Participants emerged with an empowered mindset, ready to overcome challenges, pursue opportunities, and contribute meaningfully to a more inclusive and equitable society.

## Shop loss assessing survey related to flood

### Outcome of the activities:

Conducting a shop loss assessing survey related to flood provided students with practical insights into risk management, data analysis, and problem-solving skills.

This real-world application enhanced their understanding of business challenges and prepared them for roles in insurance, risk assessment, or related fields.

## Workshop on cake making and decoration

The cake making and decoration workshop offered students a hands-on experience in baking and creatively decorating cakes, enhancing their culinary skills and fostering artistic expression. Participants left the workshop with the ability to craft visually appealing and delicious cakes, sparking a passion for culinary arts and the joy of creating delightful treats.

MES ASMABI COLLEGE, P.VEMBALLUR  
An ED Club Initiative

### Workshop on Cake Making & Decoration

DATE: 19/12/2018  
TIME: 2 TO 3.30 PM  
AT CONFERENCE HALL

Resource Person: Fathima Amana  
Ekm District Level Best Cake Making Winner

## Participation in Workshop on AI in entrepreneurship

The workshop on Artificial Intelligence in Entrepreneurship empowered students with practical knowledge and skills, enabling them to leverage AI technologies for innovation and problem-solving in the business landscape. Participants gained a strategic understanding of how AI could drive entrepreneurial success, positioning them to adapt to the evolving technological landscape and make informed, impactful contributions to the business world.

## Training on screen printing

The screen printing training equipped students with hands-on skills in the art of screen printing, fostering creativity and allowing them to express themselves through this versatile medium. Participants gained proficiency in the entire screen printing process, empowering them to create visually engaging designs and providing a valuable foundation for potential careers in graphic design and printmaking.

## Stitching training to parents

Purchase of stitching machines and provision of job opportunities to parents.

The college's initiative to purchase stitching machines and provide job opportunities to parents created a positive impact by empowering families through skill development and income generation. This not only enhanced the financial well-being of parents but also strengthened the community by fostering economic independence and self-sufficiency.

## Workshop on door mat making

The door mat making workshop equipped students with practical skills in crafting functional and aesthetically pleasing mats, fostering creativity and entrepreneurial potential. Participants left the workshop with handmade door mats, along with the knowledge and confidence to explore small-scale businesses or engage in creative home decor projects.

## Workshop on Acrylic painting

Workshop on acrylic painting on 12 November 2019

The acrylic painting workshop cultivated students' artistic abilities, providing them with a creative outlet to express themselves and develop their painting skills. Participants left the workshop with completed acrylic artworks, gaining both the joy of artistic expression and the confidence to continue exploring and refining their talents in visual arts.

## Workshop on entrepreneurship idea generation, innovation and incubation

The one-day workshop on entrepreneurship, idea generation, innovation, and incubation by FISAT empowered students with a holistic understanding of the entrepreneurial process, inspiring them to develop innovative ideas and fostering the skills needed for successful business incubation. Participants left the workshop equipped with practical knowledge, motivation, and a strategic mindset, poised to embark on entrepreneurial endeavors and contribute to innovation in the business landscape.

## Residential workshop on making cleaning products

The residential workshop on making cleaning products provided participants with hands-on experience in creating environmentally friendly and cost-effective cleaning solutions, promoting sustainability and reducing reliance on commercial products. Participants left the workshop equipped with the knowledge to produce their own cleaning products, contributing to eco-friendly practices and personal well-being while minimizing the environmental impact of traditional cleaning agents.

## Workshop on file making

The workshop on file making imparted valuable skills to students, enhancing their proficiency in crafting organized and aesthetically pleasing files. Participants left the workshop with a practical understanding of file organization and presentation, facilitating improved document management and showcasing their ability to create professional and efficient workspaces.

## Paper pen making workshop

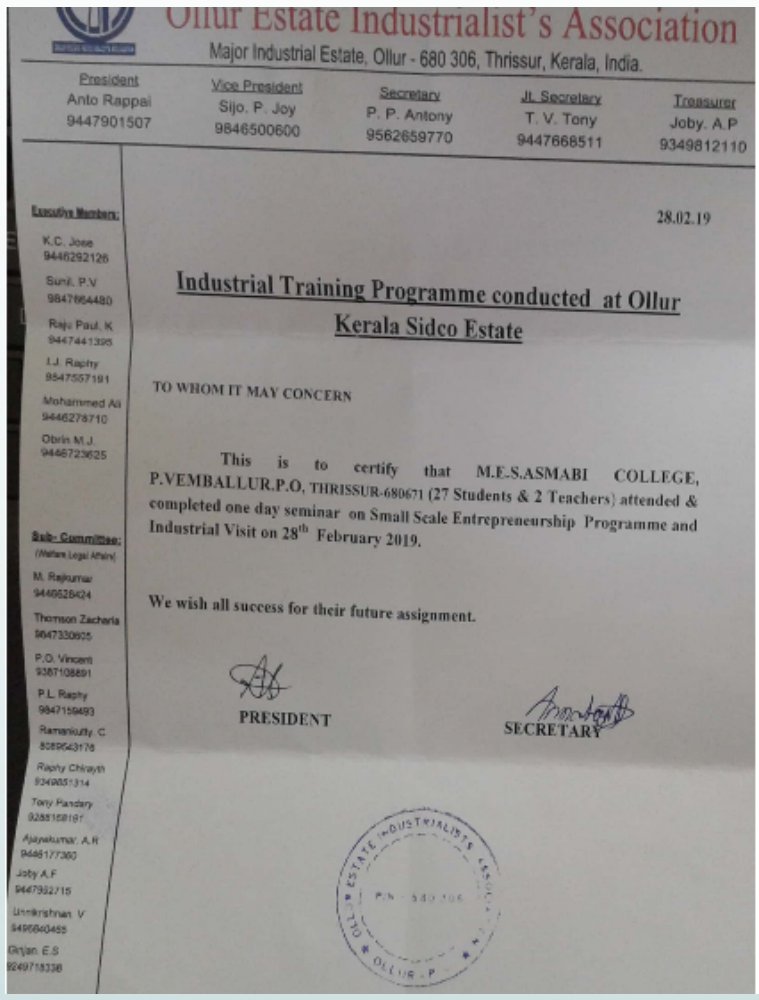

The paper pen making workshop engaged students in a sustainable and hands-on activity, teaching them to create eco-friendly pens from recycled materials. Participants not only gained practical skills in crafting but also developed an awareness of environmental responsibility, contributing to a greener mindset.

## Introducing innovative sea food products and training to stakeholders

There is a wide range of seafood products that was being marketed around the globe. Among those, we commonly used only a few items like fish fry or curry. Battered and breaded products, fish mince, stuffing, etc., were introduced to Kudumbasree members by students and staff of the Department of Fish Processing Technology.

# Industrial training programme on Small scale entrepreneurship

The industrial training programme on Small Scale Entrepreneurship was held on 28th February 2019. The training took place at Ollur, Kerala, Sideo Estate. Twenty-seven students and two teachers participated in the training. Students gained a good insight into starting a small-scale industry.
