# PARTICIPATORY RESOURCE MAPPING

DATE: 23-9 -2021

ORGANIZED BY: NSS UNITS, MES ASMABI COLLEGE  
WESTERN GHATS HORN BILL FOUNTATION

This report presents the findings and insights from a participatory resource mapping initiative conducted in Malakkapara with the aim of empowering local communities to identify, document, and manage their natural and social resources. The participatory resource mapping process involved engaging community members, stakeholders, and experts to collectively map and document the diverse resources within the community.

Participatory Resource Mapping (PRM) is a collaborative and inclusive approach to mapping and documenting natural resources, community assets, and other relevant information. It involves engaging local communities, stakeholders, and experts in the mapping process to ensure a comprehensive and accurate representation of resources. The main goal of PRM is to empower communities by involving them in decision-making processes related to resource management and development. # PLASTIC WASTE COLLECTION

DATE: 21-10-2021

VENUE: ERIYAD ABDHU RAHIMAN BEACH

ORGANISED BY :NSS IN ASSOCIATION WITH NYK, THRISSUR

The Clean India Programme, also known as the Swachh Bharat Abhiyan, is a nationwide initiative launched in India with the goal of achieving a clean and open-defecation-free country. As part of this comprehensive campaign, efforts have been directed towards cleaning public spaces, promoting waste management, and addressing environmental concerns, including the removal of plastic waste from beaches. The specific objective of the initiative focusing on plastic waste cleanup at beaches is to mitigate the environmental impact of plastic pollution on coastal ecosystems, marine life, and public health. The program aims to raise awareness, engage local communities, and implement effective strategies for the sustainable management of plastic waste along India's coastlines. Involving local communities, residents, and volunteers in beach cleanup drives to instill a sense of responsibility and ownership in maintaining the cleanliness of public spaces.

# PSYCHOLOGICAL AWARENESS ON POST-COVID SCHOOL REOPENING

ORGANISING UNIT: PSYCHOLOGY DEPT  
DATE: 29-10-2021

The Psychological Awareness Program on Post-COVID School Reopening organized by the Psychology Department in 2021 aimed to address the psychological aspects and concerns associated with the return to in-person learning after the COVID-19 pandemic. This initiative focused on fostering psychological resilience, easing anxiety, and promoting a supportive environment for students, parents, and educators. 100 people participated in the programme

**Objectives of the Program:**

Understanding Post-Pandemic Anxiety:

Conducted sessions to help parents, students, and educators understand and navigate post-pandemic anxiety related to the reopening of schools, addressing concerns about safety, social interactions, and academic challenges.

Support for Transitioning Students:

Provided targeted support for students transitioning back to in-person learning, addressing issues such as social adjustment, academic expectations, and coping with changes in routine.

Parental Guidance Workshops:

Organized workshops for parents to equip them with effective strategies to support their children's emotional well-being during the transition back to school, including open communication and creating a positive home environment.

Then these items are packed well by NSS volunteers vijayalakshmi, Karthika ,Vismaya, Sreya ,Pradeeksha,Avin Anand Dev, Hamraz ,Abhiram, Sana mol , Devapriya .

# EYE CAMP

DATE:29-12-2021  
ORGANISED BY: NSS UNITS

A bid to address eye health and promote community well-being, the National Service Scheme (NSS) team partnered with Nethra Eye Hospital to conduct a transformative eye camp on [29-12-2021]. This collaborative effort aimed to provide essential eye care services, raise awareness about eye health, and facilitate early detection of vision-related issues within the community. The eye camp was organized at a central location within the community, ensuring accessibility for all residents. A dedicated space was set up with examination stations, waiting areas, and informational displays to facilitate smooth operations. The eye camp offered free eye screenings and refraction tests to community members. Individuals underwent thorough examinations to detect common eye issues, such as refractive errors, cataracts, and glaucoma. Patients diagnosed with refractive errors were provided with prescription eyeglasses on the spot. This immediate intervention aimed to enhance visual clarity and improve the quality of life for those in need.

# SWAPSHOP

# PRIMARY HEALTH CENTRE CLEANING

DATE:21-12-2021

VENUE: PHC,P VEMBALLUR

ORGANISED BY:NSS UNITS

The National Service Scheme (NSS) team carried out a commendable cleanliness drive at the Vemballur Primary Health Centre (PHC). The initiative aimed to contribute to community well-being by ensuring a hygienic and sanitized environment for both healthcare professionals and patients. A dedicated team of NSS volunteers, including students and faculty members, actively participated in the clean-up drive. The volunteers were divided into groups, each assigned specific areas of the PHC to ensure a comprehensive cleaning effort. 18 volunteers actively participated in the programme. Proper waste segregation and disposal were prioritized to maintain environmental sustainability. The team ensured that bio-medical waste, if any, was handled in accordance with regulations, and general waste was disposed of responsibly.

# SETTING OF LIBRARY IN PHC

DATE:27-12-2021

VENUE:PHVC VEMBALLUR

ORGANISED BY:NSS UNITS

In an effort to expand community resources and promote a culture of holistic well-being, a small library was inaugurated at the Vemballur Primary Health Centre (PHC) on 27-12-21. This initiative aimed to provide a space for patients, their families, and healthcare professionals to access educational and recreational literature within the health center premises. A designated area within the PHC was transformed into a welcoming and comfortable library space. The setup included bookshelves, seating arrangements, and a reading corner, creating an inviting environment for visitors. A diverse collection of literature was curated to cater to the varied interests and needs of the community. This included health-related literature, informative pamphlets, fiction, and non-fiction books suitable for all age groups. 12 NSS volunteers actively participated in the library setting.

## TURMERIC GARDEN SETTING

DATE:28-12-2021

VENUE:ADOPTED VILLAGE

ORGANISED BY:NSS UNITS

In a proactive move towards sustainable agriculture and community well-being, the National Service Scheme (NSS) team took the initiative to establish a turmeric garden in the adopted village on 28-12-21. This project aimed to promote local cultivation, economic sustainability, and the health benefits associated with turmeric consumption. High-quality turmeric seeds were sourced, considering the local climate and soil conditions. The NSS team conducted workshops to educate villagers on proper planting techniques, including seed spacing, irrigation, and organic farming practices. 12 students actively participated in the setting. The project fostered community engagement by involving villagers in every stage of the turmeric garden setup. This collaborative effort aimed to empower local residents with agricultural knowledge and skills, creating a sense of ownership and pride in the project. The NSS team's initiative to set up a turmeric garden in the adopted village underscores the commitment to sustainable development, community engagement, and agricultural education. The project not only establishes a foundation for economic growth but also empowers villagers with knowledge and skills to sustainably manage their agricultural endeavors. The turmeric garden stands as a testament to the positive impact that collaborative efforts between NSS teams and local communities can have on promoting holistic well-being.

# BEACH PLANTATION

DATE:30-12-2021  
VENUE:VEKKOD BEACH  
ORGANISED BY: NSS UNITS

In a conscious effort to enhance environmental sustainability and foster community engagement, the National Service Scheme (NSS) team organized a beach plantation initiative at Vekkod on [Date]. This project aimed to contribute to coastal ecosystem conservation by planting native vegetation along the beach, creating a more resilient and ecologically balanced environment. Native plant species, well-suited to the coastal environment, were selected for the plantation. These species were chosen for their ability to withstand salt spray, stabilize sand dunes, and contribute to the overall biodiversity of the coastal ecosystem. 15 NSS volunteers actively participated in the programme.

# HAIR DONATION CAMP

DATE :15-03-2022 VENUE : MES ASMABI COLLEGE ,P VEMBALLUR  
BENEFICIARIES : NSS VOLUNTEERS OUTCOME : INFORM THE VALUE OF  
HAIR DONATION

In a compassionate endeavor to support cancer patients and enhance their self-esteem during their challenging journey, a donation camp and hair distribution initiative was organized on 15-3-2022 at M E S college. This event aimed to provide emotional and physical support to those undergoing cancer treatment by offering donated hair for wig-making. The event began with a well-organized donation camp, where community members generously contributed their hair to support cancer patients experiencing hair loss due to chemotherapy. Volunteers and hair stylists were on hand to guide donors through the process and ensure a positive experience. 48 NSS volunteers participated in the camp. The success of the event was largely attributed to the overwhelming support from the community. Individuals from diverse backgrounds came together to donate hair, volunteer their time, and contribute to the cause. The sense of unity and shared purpose created a positive atmosphere that resonated throughout the event.

# VISIT TO 'PEACE HOME'

DATE: 10-3-2022

VENUE: PEACE HOME THRISSUR

ORGANISED BY: PG DEPARTMENT OF COMMERCE AND MANAGEMENT STUDIES

A group of Bachelor of Business Administration (BBA) students embarked on a meaningful excursion to Peace Home, a residence for physically challenged individuals. This visit aimed to provide students with firsthand insights into the lives of differently-abled individuals and foster a sense of social responsibility and inclusivity. By interacting with the residents of Peace Home, students aimed to cultivate empathy and a deeper understanding of the challenges faced by physically challenged individuals in their daily lives. Through engaging activities and interactions, students were encouraged to reflect on their role in contributing to a more inclusive and compassionate community, aligning with the principles of corporate social responsibility. 60 students along with two faculties visited the peace home. The BBA students' visit to Peace Home served as a powerful learning experience, promoting empathy, inclusivity, and social responsibility. This excursion exemplified the potential for academic institutions to contribute positively to society by instilling values of compassion and understanding in future business leaders. The Cancer Awareness and Detection Camp successfully engaged 80 NSS volunteers and attracted participation from the local community for awareness sessions and screenings.

## Program Impact:

The program had a positive impact on increasing cancer awareness, encouraging preventive measures, and providing early detection services, contributing to better health outcomes for the community.

# BLOOD DONATION CAMP

DATE:16-3-2022

ORGANISING UNIT :PG DEPARTMENT OF COMMERCE

The Blood Donation Camp - In Association with IMA program represents a community-driven effort to address the critical need for blood donations in healthcare. Through this initiative, the Department of Commerce, in collaboration with the Indian Medical Association, aimed to save lives, raise awareness about the importance of blood donation, and foster a culture of community well-being and compassion. The program exemplifies the positive impact that academic institutions can have on public health when engaging with the community in meaningful ways. 150 students and teachers of the dept participated in the programme . The blood donation camp channelised the community members to voluntarily donate blood, contributing to the replenishment of blood banks and ensuring an adequate and readily available blood supply for medical emergencies.

# HELP TO EMERGENCY CARE

DATE:18-3-2022

ORGANISED BY: ALUMNI ASSOCIATION

VENUE:KAIPAMANGALAM PANCHAYATH

The Help to Emergency Care program facilitated by the Alumni Association in 2022 aimed to provide essential equipment to the Emergency Care facilities in Kaipamangalam. Through this collaborative effort, the alumni community sought to enhance the capabilities of the emergency care center, contributing to improved healthcare services and patient outcomes in the local community. The Help to Emergency Care through Alumni - Distribution of Equipment program exemplifies a collaborative effort between the Alumni community and the Emergency Care facility in Kaipamangalam, working towards the common goal of enhancing emergency healthcare services. Through this initiative, the Alumni Association aimed to make a positive and lasting impact on the local community's health and well-being, demonstrating the commitment of alumni to social commitment. The Association provides wood cutter to the panchayath.

# COASTAL VEGETATION BELT NURSERY - DEVELOPING NURSERY

COLLABORATING ENTITY: WESTERN GHATS HORNBILL FOUNDATION

DATE:26-4-2022

The Coastal Vegetation Belt Nursery program initiated by the Western Ghats Hornbill Foundation in 2022 aimed to establish and develop a nursery dedicated to propagating and nurturing coastal vegetation species. This initiative focused on fostering the restoration and conservation of coastal ecosystems by providing a sustainable source of native plants.

Objectives of the Program:

Nursery Establishment:

To establish a dedicated nursery facility equipped with the necessary infrastructure for the propagation and cultivation of coastal vegetation species.

Native Plant Propagation:

To focus on propagating native plant species endemic to coastal ecosystems, emphasizing the preservation of biodiversity and the promotion of locally adapted vegetation.

Species Diversity Enhancement:

To enhance the diversity of coastal vegetation species within the nursery, ensuring a rich assortment of plants that contribute to the ecological health and resilience of coastal environments.
