Respected teacher,

Sub: In regards of grievance of internal mark of MCM3C11  
Financial Management.

I was unable to perform well in the Internal examination of Financial Management due to my illness on that day (25-11-2021). So my internal grade of Financial management was 3.8 and 'C' grade in test paper. I kindly request your consideration for a retest to improve my internal mark. Expecting your favourable response.

Yours faithfully.

On 10/12/2021 in response to Nanda.G.Vallabhan's request for conducting retest of financial management, I conducted a retest on 13/12/2021. She got A grade in test paper upgrading from C. Consequently her internal mark in financial management increased to 4.2 and forwarded the same to Smt. Deepa.K.A, class tutor of II Mcom finance.

Erosion of America's farmland by wind and water has been a problem since settlers first put the prairies and grasslands under the plow in the nineteenth century. By the 1930s, more than 282 million acres of farmland were damaged by erosion. After 40 years of conservation efforts, soil erosion has accelerated due to new demands placed on the land by heavy crop production. In the years ahead, soil erosion and the pollution problems it causes are likely to replace petroleum scarcity as the nation's most critical natural resource problem.

- (a) What are the two means of soil erosion in America ?
- (b) What was the extent of soil erosion in the 1930s ?
- (c) Why did the soil conservation efforts fail ?
- (d) How is America going to be affected by soil erosion in the coming years ?
