Certificate course English for PSC Examinations 2022-23

Report and Course Outcome

The certificate course English for PSC Examinations was inaugurated on 28th August 2022. Eight sessions were conducted in room no.7 near the English department and the rest of the classes were conducted online through the platform Google meet. All the 71 students got above 80% attendance. A diagnostic test was conducted on the first day of the course. Majority of the students were not able to perform well in the test. Mock test conducted at the end of each week helped the students to appear for the final test. 90 % of the students secured 90% marks and secured A+ grade. The rest of the 10% scored above 80% marks and secured A grade. The feedback of the course emphasises the fact that the learners were able to face various examinations of Public Service Commission after the course.

1.2.1 Course Syllabus

Disaster Management

Objectives:

1. To enable the students to understand the importance of Environment.
2. To enable the students to make reflective thoughts on the need for environmental consciousness.
3. To make them pass on their awareness to the public as a responsible citizen.

Module I

Introduction:

- Need and scope of Environmental Studies
- Diagnostic test
- A Retrospection on Natural Disasters
Landslides, earthquakes
Climate change, Global Warming
Extinction of Animals
Imbalance and in equilibrium
How to prevent imbalance and protect environment

(10 Hours)

Module II

- Deep and Shallow Ecology.
- Anthropocentric Orientation and its disorientation
- Conservation of wild life
- Rachel Carson and Environmental studies

(6 Hours)

Module III

Disaster management
UNCED and Development
Environmental Education

(10 Hours)

Module IV

Ecological pyramids
a) Pyramid of number

b) Pyramid of biomass

c) Pyramid of energy

Environment and Literature

Eco Criticism

(10 Hours)

Recommended reading

1.2.1 Report and Course Outcome

The certificate course on Disaster Management was inaugurated on 21st August 2022. Four sessions were conducted in room no.5 near the English department and the rest of the classes were conducted online through the platform Google meet. All the 72 students got above 80% attendance. A diagnostic test was conducted on the first day of the course. Majority of the students were not able to perform well in the test. Mock test was conducted at the end of each week and that helped the students to appear for the final test. 90 % of the students secured 90% marks. The rest of the 10% scored above 80% marks and secured A grade. The feedback of the course emphasises the fact that the learners were fit to encounter attacks from elements and got practical knowledge as how to take precautions if rescue is possible.

REPORT AND OUTCOME OF THE COURSE

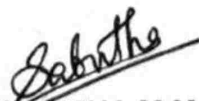

Post-graduate and Research Department of English conducted Certificate Course titled "Contemporary English Grammar Usage" for the students of UG and PG level. Total seventy-six students were enrolled for the course in two batches. The course officially began in the month of August 2022 and continued till January 2023. The course stucked on to the syllabus prescribed and shed light on varied aspects of functional grammar and various communicative skills in basic writing. Conducted final assessment test and distributed the certificates in the end of the academic year.

OUTCOME:

1. The course benefitted the students with diverse domains of structural grammar.
2. The students were given exposure to practical application of grammar in spoken and written forms.
3. Course guided the students to write official communication letters, cv and resume.

Overview

The course will offer the students better understanding on nutritional principles and chemical properties of nutrients and other dietary components. After the successful completion of the course students will learn to prepare diet plan. Students will also get knowledge to interpret basic clinical biochemistry investigations in humans (such as body fluids) which are used for disease diagnosis and prognosis.

Syllabus

Module 1(5hrs)

Introduction and definition of food and nutrition. Basic food groups: energy yielding, body building and protective foods. Physiology and nutrition of carbohydrates and fats. Physiology and nutrition of proteins and water.

Module 2(4hrs)

Fat soluble vitamins: Vitamin A, D, E, and K. Water soluble vitamins: vitamin B complex and vitamin C. Minerals (Ca, Fe and iodine) and their biological functions. Composition of balanced diet and recommended dietary allowance (RDA).

Module 3(6hrs)

Basic concepts of energy expenditure, units of energy. The basal metabolic rate (BMR) and its determination. Specific dynamic action (SDA) of foods. Planning of dietary regimes for infants, adults, pregnancy and old age.

Module 4(4hrs)

Nutrition and brain development, Mother's milk versus formulated milk feeding. Food adulterations and precautions

Module 5(2hrs)

Basic concepts of Clinical Biochemistry
Types and uses of biochemical tests. Clinical Biochemistry laboratory Specimen collection, processing and transportation. Specimen collection, processing and transportation-II.

Module 6 (2 hrs)

Blood cell count & anemia. Hemophilia Diseases related to carbohydrate metabolism. Diabetes mellitus.

Module 7 (3 hrs)

Liver Function tests, Jaundice, The Kidneys, Clinical enzymology, Isozymes and diagnostic tests. Enzyme patterns in acute pancreatitis, liver damages and myocardial infarction.

Practical: (4hrs)

Estimation of blood glucose, total cholesterol, total plasma protein, albumin and urine analysis.

Clinical and Nutritional Aspects of Biochemistry

ASCEP04

Report and Course Outcome

Certificate course in Clinical and Nutritional Aspects of Biochemistry was conducted direct class room mode from 1st December 2022 to 21st January 2023. All the sessions were conducted in classroom mode. During the 30 –Hour course, a total of 74 students from different UG subjects participated in the program. The course on Clinical and Nutritional Aspects of Biochemistry designed to provide students with an understanding of clinical and nutritional aspects of biochemistry. Students were evaluated based on assignments, practical skill assessments and a final exam.

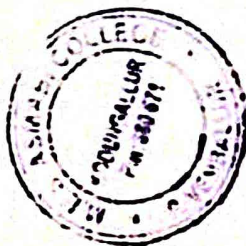

In the evaluation, it was found that all the students qualified the examination and obtained more than 80% mark, which demonstrated that, a strong understanding of course material and course design. It was found that the students had achieved the objectives of the course in various ways. Some students depicted a strong understanding of theoretical clinical and nutritional aspects of biochemistry, while others demonstrated in the practical implementation of techniques.

Overall, the course was deemed successful in providing a comprehensive learning experience to the students, and they were able to apply their knowledge in different fields related to polymer science. By the end of the course, students were able to gained the desired [outcomes successfully. Also a certificate of completion of the course was given to the qualified students.

COURSE SYLLABUS

How to approach Civil Service Examination- ASCEP05

Module I

- Current events of national and international importance
- History of India and Indian national movement
- Indian and world geography
- Indian polity and governance
- Economic and social development
- General issues on environmental ecology, biodiversity, and climate change
- General science

Module-II

- Comprehension
- Interpersonal skills including communication skills
- Logical reasoning and analytical ability
- Decision-making and problem-solving
- General mental ability
- Basic numeracy (class-X level)
- Data interpretation (class-X level)

Course Syllabus

Certificate course in Communicative English

Objectives:

1. To enable the students to use the language with fluency, appropriate diction and idioms
2. To enable the students to acquire basics of Suprasegmental features of spoken English
3. To empower with the mastery of rhetoric in public speech, using language confidently in interviews

Module I

Introduction:

- Need and scope of CCCE
- Diagnostic test
- Problems of being a second language learner
- Possible approaches and solutions
- Parts of Speech
- Subject, Verb, Object
- Verb - Different Forms of the Verb
- Subject and Verb Agreement (Singular and Plural Forms of Nouns and Verbs)
- Tenses and role of verb in it
- Use of idioms and phrases
- Structure of a Sentence
- Structure of a Question
- Use of Active and Passive Voice, Reported Speech and Tag question in communication
- Use of courteous language

(7 Hours)

Module II

PHONETICS

Vowels ---Diphthongs --- Consonants --- Points of Articulation of Sounds- Connected speech

with intonation

VOCABULARY

Introduce common place expressions of language -- Different Forms of the Verb ---

Specimens of Situational Conversations, Phrases, Sentences and Questions --- Synonyms ---

Antonyms --- Miscellaneous.

- Familiarize students with language lab
 - Identification of sounds or words including pronunciation of digits.
 - Announcements during event management, stage shows and ceremony
 - Practice sessions of conversations, Story building, Narration, Translation etc.
 - Group Discussion
 - Works to enhance reading skills
- (13 Hours)

(Note: Students are advised to keep an Oxford Advanced Learner's Dictionary)

Module III

(Individual Work)

- Speech and patterns of rhetoric
 - Self introduction
 - Mock interview

 - Practice in formal speech
 - Pick and Choose activities
- (10 Hours)

Certificate Course- Communicative English 2022-23
Report and Course Outcome

Certificate Course in Communicative English was started with the objective of enabling the students with skills in English communication. 30 classes were conducted with 72 students from different batches. A diagnostic test was conducted at the beginning of the course to understand the level of the knowledge of the students in English. Various methods like group discussions, pair work, role play etc were applied in order to improve the fluency in English language. Most of the students participated with great enthusiasm as they are well aware of the significance of handling the global language in the present scenario. In the final test more or less scored above 90% marks. Attendance was marked. The feedback collected at the end of the course emphasizes the fact that learners were able to cross various inhibitions in English communication and also became confident to face interviews with a renewed optimism.

Certificate Course

INTELLECTUAL PROPERTY RIGHTS & IP LAWS

Course Design

Intellectual Property Rights (IPR) have become one of the crucial issues of concern in the contemporary relations among nations. Central to such a concern has been the level of protection sought/contested on the rights rendered in recognition of the intellectual input/creativity underlying and invention or an artistic expression. The debate over IPR acquired an all-pervasive connotation in the wake of the TRIPs agreement, with the WTO at its centre. The new IPR regime that has come into being seems to have vital linkages to the revolution in the New Generic Technologies Information and Communication Technology and Biotechnology in particular. Intellectual Property (IP) is an important and effective policy instrument relevant to a wide range of socioeconomic, technological and political concerns. Our programme helps students to understand the implications of patents, copyrights, design, trademarks, and geographical Indications.

Aims and Objectives

- To bring innovation and excellence in teaching and research.
- To generate critical awareness among students, teachers and the younger generation on the correlation between technology and society.
- To promote interdisciplinary approach in teaching and research, as well as to make it socially relevant.
- To promote a high degree of awareness on intellectual property rights in general and in particular patents, trademarks, copy right, traditional knowledge and geographical indications which have become crucial concerns to society at the local, regional, national and international milieu.
- To give a direction to identify issues and concerns at local/regional/global problems through training of the required human resources.

Evaluation Procedures:

The evaluation is based on weekly assignments and quizzes. Students were asked to view the video classes and after watching the video classes, they have to attend the assignments and quizzes. It was mandatory to attend all the assignments and quizzes. A final online test was conducted at the last of the online course. As part of the certificate course a webinar on IPR and AI was also organized and all the students participated in that webinar.

REPORT OF CERTIFICATE COURSE ON INTELLECTUAL PROPERTY RIGHTS

RESEARCH AND PG DEPARTMENT OF BOTANY

Academic Year 2022-23

Name of the Certificate Course : Certificate Course on Intellectual Property Rights
Course Duration : 32 Hrs
Total number of students enrolled : 72
Mode of course conducting : Online classes
Date of Introduction : 08/08/2022

The certificate course on intellectual property rights and IP laws was started on 8th August, 2022. A total of 72 students from different streams were admitted, and all of these students completed the course and qualified for certification. Online classes were provided to students. Online classes were provided through the MOODLE platform of St. Peter's College, Kolenchery. All the modules were completed, and the results were published on March 12, 2023. A certificate of completion of the course was given to all the qualified students.

Course Outcome (Focus on Employability/Entrepreneurship)

The primary function of intellectual property rights (IPRs) is to protect and stimulate the development and distribution of new products and the provision of new services based on the creation and exploitation of inventions, trademarks, designs, creative content or other intangible assets. This certificate Course helped the students to distinguish and explain the various forms of IPRs. The most important of course outcome is that the students can identify criteria's to fit one's own intellectual work in particular form of IPRs and they can apply statutory provisions to protect particular form of IPRs. They also able to Identify the procedure to protect different forms of IPRs national and international level and also they developed skill of making search using modern tools and techniques.

Course Syllabus

Certificate Course on Data Analysis using SPSS

Objectives:

1. To familiarize the students with the basics of Data Analysis
2. To enable the students to carry Descriptive analysis using SPSS
3. To enable the students to carry inferential statistical analysis using SPSS

Module I

Introduction to Data Analysis and SPSS

(10 Hours)

Basics of Data Analysis, Introduction to SPSS, Importing Data, Data Coding/ Management

Data Transformation

Module II

Producing Descriptive Statistics and Econometric Analysis in SPSS (10 Hours)

Descriptive Statistics, Correlation, Regression analysis

Module III

Hypothesis Testing

(10 Hours)

Single Sample T Test, Paired T Test, Independent Sample T, Test Analysis of Variance (ANOVA), Chi Square and other Non-Parametric Tests

CERTIFICATE COURSE on Data Analysis using SPSS
COURSE CODE: ASCCEP09, 2022 23
REPORT AND COURSE CODE

The certificate course offered by the department of Economics was started on 10/10/2022
71 students joined the students and 70 students completed the course. This course aims to
familiarize the students with the basics of Data Analysis and to enable the students to carry
Descriptive analysis using SPPS. The course includes 30 hours of practical and theory class.
Certificate was also distributed to the students as they secured 90% attendance as required
by the course. After the completion of the course the learners familiarised with various
statistical tools and techniques and its application in their concerned subjects

SYLLABUS AND COURSE PLAN(2022-2023)

COURSE NAME : CERTIFICATE COURSE -BASIC MATHEMATICS FOR
COMPETITIVE EXAMINATIONS 2022-2023

COURSE CODE: ASCEP10 (Coordinator : Nasreen A)

DURATION : 32 HRS

INTAKE : 80

COURSE OBJECTIVE/SCOPE:

1. Students will become equipped with a solid foundation of mathematical tools
2. Course would benefits any student who require help understanding basic math skills in
Order to pass a competetive examination

COURSE OUTCOME:

1. Apply numerical ,mathematical and reasoning skills in competitive examinations

SYLLABUS:

(i). Simple Arithmetic

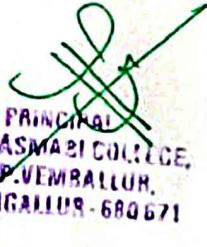

1. Numbers and Basic Operations
2. Fraction and Decimal Numbers
3. Percentage
4. Profit and Loss
5. Simple and Compound Interest
6. Ratio and Proportion
7. Time and Distance
8. Time and Work
9. Average
10. Laws of Exponents
11. Mensuration
12. Progressions

(ii) Mental Ability & Reasoning

1. Series
2. Problems on Mathematical Signs
3. Verifying Positions
4. Analogy- Word Analogy, Alphabet Analogy, Number Analogy
5. Odd man out
6. Numerical Ability
7. Coding and Decoding
8. Family Relations
9. Sense of Direction
10. Time and Angles
11. Time in a clock and its reflection
12. Date and Calendar
13. Clerical Ability

Module I (5 Hrs)

- Need and scope of ASCP11
- Diagnostic test

Introduction to Computers: Types of Computers - Desktop, Laptop, Notebook and Netbook. System - Software Computer Languages, Features of good language.
 Basics Computer Organization: Input Unit, Output Unit, Storage Unit, Control Unit, Memory Hierarchy, Primary Storage, Secondary Storage Devices.
 Networks - LAN, WAN - Client – Server. Basics of Web Design – www, W3C, Web Browser, Web Server, Web Hosting, Web Pages, DNS, URL

Module II (8 Hrs)

Documentation Using a Word Processor (OpenOffice Writer / M.S. Word) - Introduction to Office Automation, Creating & Editing Document, Formatting Document, Auto-text, Autocorrect, Spelling and Grammar Tool, Document Dictionary, Page Formatting, Bookmark, Advance Features - Mail Merge, Tables, Printing, linking and embedding object, Template.

Module III (9 Hrs)

Electronic Spread Sheet (OpenOfficeCalc/MS-Excel) - Introduction to Spread Sheet, Creating & Editing Worksheet, Formatting and Essential Operations, Formulas and Functions, Charts, Advanced features – Pivot table & Pivot Chart, Linking and Consolidation.

Module IV (8 Hrs)

Presentation using (OpenOffice Impress/MS-Power Point): Presentations, Creating, Manipulating & Enhancing Slides, Organizational Charts, Charts, Word Art, Animations and Sounds, Inserting Animated Pictures or Accessing through Object.

**Certificate course :Internet and MS Office
2022-2023**

Report and Course Outcome

The certificate course Internet and MS Office (2022-2023) (ASCP11) was inaugurated on 28th August 2022. 31 sessions were conducted in Computer Lab. started on 1st August 2022 in two batches for 1st, 2nd and 3rd year UG students Duration of 1 ½ Hrs. All the 71 students got above 80% attendance. A diagnostic test was conducted on the first day of the course. Majority of the students were not able to perform well in the test. Mock test conducted at the end of each week helped the students to appear for the final test. 90 % of the students secured 90% marks and secured A+ grade. The rest of the 10% scored above 80% marks and secured A grade. Certificate were issued for all 74 students after the course as they passed the examination and secured more than 80 % of the attendance. The course feedback is that the students can do their online tasks given by the teacher in a better way.

Course Syllabus

Entrepreneurship opportunities in Seafood industry

Objectives:

- Create a passion for self employment
- Identifying the right opportunity
- Source of finance and to develop entrepreneurial skills.
- Role of Creativity and innovation in Entrepreneurial start-ups in seafood industry
- Live cases of social , techno, women entrepreneurs along with visit and interaction with entrepreneurship development peoples
- Developing Leadership Skills, Communication skills for entrepreneurship development, Developing Speaking Skills, Developing Listening Skills, Developing organizational skill, Problem solving skill

Module:1 Entrepreneurial Management

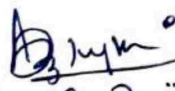

- i. Introduction to Entrepreneurship and Its Evolution
- ii. Roles of an Entrepreneur
- iii. Idea Generation, Screening, Selection and Managing Resources
- iv. Major considerations in entrepreneurship development
- v. Licensing in entrepreneurship development

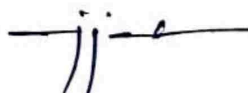

Module:2 Opportunities : Identity Formation with Fish processing

- vi. Fish preservation methods
- vii. Value added fishery products
- viii. fishery By-products
- ix. Assignment/Presentation

Module:3 Implementation

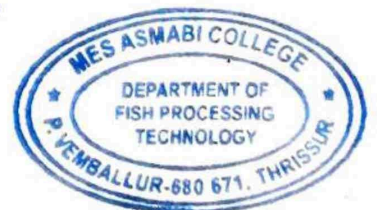

- x. Startups in Near by area – Site visit, Interviews of Founders and Supporters
- xi. Field visit in Near by area
- xii. Project:Value Added Products From Low Cost Fish And Shellfish
- xiii. Product Marketing

DEPARTMENT OF VOCATIONAL STUDIES
FISH PROCESSING TECHNOLOGY
Certificate Course 2022-23
Entrepreneurship Opportunities in Seafood Industry

REPORT:

The Department of Fish Processing Technology conducted a 30 hours certificate course on "Entrepreneurship opportunities in Seafood Industry", from 29-08-2022 to 17-11-2022. 60 students from different domains are enrolled for the programme. Ujjwala Navas, Faculty of the department engaged the theory classes on the topic. Practical classes and industrial visit were coordinated by Sugaina Sulaiman M.S.

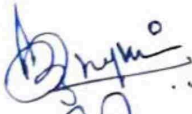

The titles- entrepreneurship, role of an entrepreneur in the economic development of the nation, entrepreneurial opportunities in fishery field, major considerations, licensing and steps involved in starting an entrepreneurship etc. are covered under the theory syllabus. A discussion mode of classes were arranged to grab their entrepreneurial ideas.

Practical sessions were carried out on the development of value added fishery products to motivate the students. An industrial visit arranged to meet the entrepreneurs in the nearby area.

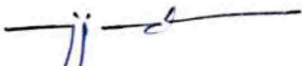

Assessment and evaluation are done on the basis of the assignment provided and the project work in the development of value added fishery products and their marketing. Students scored a minimum of 70 % marks.

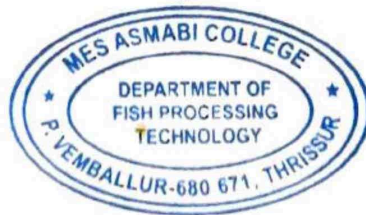

Outcomes:

- The classes helped the students to identify the entrepreneurial opportunities in fishery sector
- It helped to increase the confidence level of the students to get into a start up venture

THE DEPARTMENT OF PHYSICS

PROPOSAL FOR

CERTIFICATE COURSE IN "BASIC PROGRAMMING IN PYTHON"

Total hrs:31

Course Description:

The "Basic Programming with Python" course is a 30-hour hands-on introduction to Python programming. Learn Python syntax, data structures, functions, file handling, and basics of OOP. Practical projects reinforce knowledge, providing a strong foundation for real-world applications and further Python exploration. No prior experience required. Ideal for beginners and non-technical professionals

Course Objectives:

1. Master Python Syntax: Acquire a solid understanding of Python's syntax, including variables, data types, operators, and control flow statements, to write clean and concise code.
2. Data Manipulation Proficiency: Gain confidence in working with essential data structures like lists, tuples, dictionaries, and sets, enabling efficient data organization and manipulation.
3. Develop Reusable Code: Learn the concept of functions, how to create custom functions, and utilize parameters and return values to enhance code modularity and reusability.

Week 1(2 hrs)

Introduction

Week 2 (6 hrs)

Python syntax

Week 3(6 hrs)

Control flow

Week 4(4 hrs)

Function and file handling

Week 5(4 hrs)

Data structure

Week 6(4 hrs)

Object oriented program

Week 7(5 hrs)

Inheritance and standard library

Course Syllabus

Certificate course in basic programming using python

Course Objectives:

1. **Master Python Syntax:** Acquire a solid understanding of Python's syntax, including variables, data types, operators, and control flow statements, to write clean and concise code.
2. **Data Manipulation Proficiency:** Gain confidence in working with essential data structures like lists, tuples, dictionaries, and sets, enabling efficient data organization and manipulation.
3. **Develop Reusable Code:** Learn the concept of functions, how to create custom functions, and utilize parameters and return values to enhance code modularity and reusability.

Module 1: Introduction to Python and Basic Syntax

1. Introduction to Programming and Python

- Overview of programming concepts
- Setting up Python environment

2. Basic Python Syntax

- Print statements and comments
- Variables and data types
- Basic arithmetic operations

3. Control Flow

- Conditional statements (if, elif, else)
- Loops (for and while)
- Break and continue statements

Module 2: Functions and File Handling

4. Functions

- Defining functions
- Parameters and return values
- Scope and namespaces

5. File Handling

- Reading and writing files in Python
- Using context managers (with statement)

Module 3: Data Structures and Libraries

6. Lists and Tuples

- Creating and manipulating lists
- Working with tuples

7. Dictionaries and Sets

- Understanding dictionaries
- Working with sets

Module 4: Object-Oriented Programming (OOP) Basics

8. Introduction to OOP

- Classes and objects
- Constructors and methods

9. Inheritance and Polymorphism

- Extending classes
- Overriding methods

Module 5: Final Project and Conclusion

10. Mini Project

- Implement a small project using concepts learned so far

11. Introduction to Python Standard Library

- Exploring Python's standard library
- Useful modules for everyday tasks

12. Final Project

- Develop a simple Python program using various concepts covered

Certificate course in Basic Programming using Python

Course code:ASCEP13

REPORT AND COURSE OUTCOME

The "Basic Programming with Python" course was designed as a comprehensive introduction to Python programming over a 30-hour duration. The course covered essential topics, including Python syntax, control flow, functions, file handling, data structures (lists, tuples, dictionaries, and sets), and fundamental object-oriented programming (OOP) concepts. Throughout the course, students engaged in practical exercises, quizzes, and two hands-on projects to reinforce their understanding of the material.

By the end of the course, participants developed a strong foundation in Python programming. They acquired the skills to write basic Python scripts, manipulate data using data structures, create and use functions effectively, and handle files. Additionally, students gained insights into OOP principles, enabling them to design and implement simple object-oriented programs. The course outcome demonstrated the learners' ability to apply Python programming concepts to real-world scenarios, empowering them to pursue further studies in Python or explore more advanced programming concepts and external libraries confidently.

REPORT OF CERTIFICATE COURSE ON NURSERY AND LANDSCAPING
RESEARCH AND PG DEPARTMENT OF BOTANY
Academic Year 2022-23

Name of the Certificate Course : Certificate Course on Nursery and Landscaping
Course Duration : 31 Hrs (17 Hrs Theory & 14 Hrs Practical)
Total number of students enrolled : 71
Mode of course conducting : offline and online classes
Date of Introduction : 04/01/2023

The certificate course on Nursery and Landscaping was introduced on January 4, 2023. As part of this certificate course, a total of 71 students from both UG & PG classes of different streams were admitted, and all these students completed the course and qualified for certification. The classes were conducted in blended mode, online mode in Google Meet, and offline classes. The practical sessions on garden preparation, vegetative propagation, and preparation of potting mixtures were demonstrated. All the theory and practical classes were completed by February 26, 2023. The internal and external evaluations had been completed, and the results were published on March 10, 2023. A certificate of completion of the course was given to the qualified students.

Course Outcome (Focus on Employability/job opportunities)

Nursery techniques are high precedence for seedling production and improved tree propagation methods, leading to the development of detailed production schedules for each species being propagated. A nursery must provide the condition for the growth of seedlings and must protect them from stress and extreme climates. This certificate Course helped the students to understand the various techniques related to growth and developments of seedlings. The most important

Head of Department

2022-2023
CURRICULUM AND EVALUATION PROCEDURE

Department : Research and PG Department of Botany
Collaborating Cell : CEIC of Western Ghats Hornbill Foundation
Name of the Course : Geoinformatics and Mapping for Natural Resource Management
Course Code : ASCEP16
Coordinator : Dr Amitha Bachan K.H.
9497627870, amithabmes@gmail.com
Joint Coordinator : Dr Girija T. P.
Head of the Department : Dr Girija T. P.
Number of students : 72
Duration of the course : 31 hrs
Level : UG/PG
Teaching Methodology : Direct method, Group discussions
Teaching aids : Ppt, Videos

CURRICULUM

Objectives:

1. To carry out inter and multidisciplinary research and studies on issues related to Geo-information.
2. Provide efficient means for data distribution and handling.
3. Complex analysis/queries involving geographical reference data to generate new information.

Module I

Introduction to GIS & Applications

- o What is GIS
- o GIS Concepts
- o Spatial Data Concepts
- o GIS Applications in the real-world scenarios

(6 Hours)

Module II

Overview of open source and proprietary GIS software

- o Introduction to GIS software's
- o Open Source vs Proprietary GIS software
- o Overview of GIS Products (ESRI, QGIS)
- o Capabilities of GIS tools in the leading software's

(7 Hours)

Module III

Utilising Spatial technology for Natural resources.

- o Spatial analytical capabilities used by ecologists and conservation biologists.
- o Introduction to natural resources mapping, monitoring and modelling.
- o Latest GIS technology trends in Conservation GIS

(9 Hours)

Module IV

Spatial Data Model Creation

- o GPS survey
- o Georeferencing of Maps
- o Digitisation and Creation of attribute table of Species samples
- o Visual interpretation of Satellite imagery

(9 Hours)

Software Used

Quantum GIS (QGIS 3.22)

EVALUATION PROCEDURE

- Model examinations (Theory as well as practicals)
- Weekly open source software based practical assessment.

Coordinator : Dr. K.H. Amitha Bachan
Joint Coordinator : Dr. Girija T.P.
No of Students enrolled : 72
No of Students Completed : 72
Year : 2022-2023

Date of evaluation : 24-2-2023
No of Students qualified : 72
No of Certificates issued : 72

COURSE OUTCOME

- It provide awareness to the participants on Geospatial technologies and equip them with the necessary know-how for handling and managing GIS related tasks in biodiversity conservation
- It will bring a pool of spatial knowledge to the student community
- It can help in conducting GIS projects

Course Details

Course Intake: 70

Course Duration: 30 hours (20 hours Theory and 10 hours Practical)

The mode of course conduct shall be through offline and online classes and the LMS Google Classroom.

Course Evaluation:

The evaluation scheme for the course shall contain two parts:

1. Internal Assessment
2. External Evaluation

25% of the total mark is for internal assessment, and 75% is for external evaluation.

Table showing components with marks of evaluation

		Component	Mark
Theory (Total mark 80)	Internal (Total mark 20)	Attendance	10 mark
		Assignment	4 mark
		Exam I (Objective type)	3 mark
		Exam II (Objective type)	3 mark
	External (Total mark 60)	Essay	1*10 mark = 10 mark
		Short answer	4*5 mark = 20 mark
		Very Short Answer	10*3 mark = 30 mark
Practical (Total mark 20)	Internal (Total mark 5)	Involvement in practical sessions	5 mark
	External (Total mark 15)	Demonstration/Viva	5 mark
		Record	5 mark
		Field trip/Workshop report	5 mark

CERTIFICATE COURSE

ON

EDIBLE FUNGUS FUNDAMENTALS

Course code: ASCEP17 Duration: 30 Hours

Course Objectives:

- Enable the students to identify edible and poisonous mushrooms
- Provide hands on training for preparing beds for mushroom cultivation and spawn production
- Give the students exposure to the experiences of experts and functioning mushroom farms
- Help the students learn a means of self-employment and income generation.

Course outcome:

By successfully completing the course, students will be able to:

- Identify edible types of mushrooms.
- Gain the knowledge of cultivation of different types of edible mushrooms and spawn production
- Manage the diseases and pests of mushrooms
- Learn a means of self-employment and income generation

Syllabus

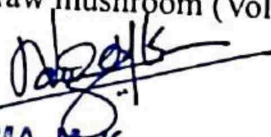

Module 1: Introduction to mushrooms (2 hours)

Mushrooms -Taxonomical rank -History and Scope of mushroom cultivation - Edible and Poisonous Mushrooms-Vegetative characters

Module 2: Common edible mushrooms (2 Hours)

Button mushroom (*Agaricus bisporus*), Milky mushroom (*Calocybe indica*), Oyster mushroom (*Pleurotus sajorcaju*), and paddy straw mushroom (*Volvariella volvcea*).

Module 3: Principles of mushroom cultivation (8 Hours)

Structure and construction of mushroom house, Sterilization of substrates, Spawn production culture media preparation- production of pure culture, mother spawn, and multiplication of spawn. Composting technology, mushroom bed preparation. Spawning, spawn running, and harvesting. Cultivation of oyster and paddy straw mushrooms. Problems in cultivation - diseases, pests, nematodes, weed moulds and their management strategies

Module 4: Health benefits of mushrooms (2 Hours)

Nutritional and medicinal values of mushrooms. Therapeutic aspects- antitumor effect

Module 5: Post harvest technology: (4 Hours)

Preservation of mushrooms - freezing, dry freezing, drying, canning, quality assurance, and entrepreneurship. Value added products of mushrooms.

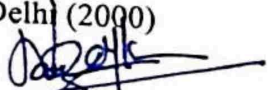

Module 6: Training/ Workshop/ Field visit (12 Hours)

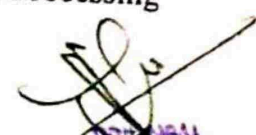

Sterilization and sanitation of mushroom house, instruments and substrates, Preparation of mother culture, media preparation, inoculation, incubation and spawn production Cultivation of oyster mushroom using paddy straw/agricultural wastes

REPORT ON EDIBLE FUNGUS FUNDAMENTALS CERTIFICATE COURSE
RESEARCH AND PG DEPARTMENT OF BOTANY
Academic Year 2022-23

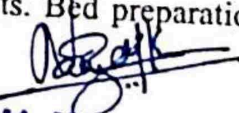

Department : Research and PG Department of Botany
Name of the Course Coordinator : Nazeema M K
Head of the Department : Dr Girija T P
Name of the Certificate Course : Certificate Course on Mushroom Cultivation
Course code : ASCEP17
Course Duration : 30 hours (20 hours Theory and 10 hours Practical)
Total number of students enrolled : 69
Mode of course conduct : offline and online classes
Date of Introduction : July 25, 2022

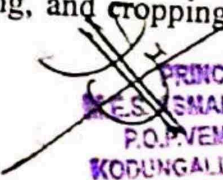

On July 25, 2022, the Research and PG department of Botany introduced a certificate course on mushroom cultivation, aiming to equip students from diverse academic backgrounds with essential skills in this field. A total of 69 students were admitted to the course, by November 4, 2022, we had successfully completed all the theoretical and practical classes, ensuring comprehensive learning for our students. All of the admitted students successfully completed the program and obtained their certifications.

Course Structure and Methodology:

The course was designed with a blended approach, combining online sessions conducted via Google Meet and offline practical sessions. Throughout the course, students were exposed to both theoretical knowledge and hands-on experience, which proved to be a highly effective learning method. Practical demonstrations played a crucial role in enhancing the students' understanding of key concepts. Bed preparation, spawning, and cropping were

thoroughly covered during the hands-on sessions.

Evaluation and Certification:

Internal and external evaluations were conducted to assess the students' progress and performance. The results were announced on December 16, 2022. We are proud to acknowledge the dedication and hard work demonstrated by all the students, and each one of them qualified for the certificate of completion.

Course Outcome and Focus:

The primary focus of the course was on employability and entrepreneurship, providing students with the necessary skills to engage in mushroom cultivation throughout the year. Whether they plan to establish small, medium, or large mushroom farms, they are now equipped with the knowledge and expertise to do so efficiently. This course also highlighted the significant profit potential of mushroom farming, making it an ideal business venture even for individuals with limited prior experience in the field. The technical training received during the course has empowered our students to embark on their own mushroom farming businesses confidently. They are now well-prepared to utilize various levels of technology and leverage suitable infrastructure to ensure a successful venture.

PLATFORM SKILLS (COURSE CODE: ASCEP18)
2022-2023

Department	: Psychology
Name of Course	: Platform Skills
Course Code	: ASCEP18
Coordinator	: Lathif Penath
Head of Department	: Lathif Penath
Maximum Number of Students	: 76
Duration of the Course	: 30 hours
Level	: UG/PG
Teaching Method	: Workshops
Teaching Aid	: LED projector, Blackboard/whiteboard, Clips, duster

Curriculum Certificate course in Platform skills for Trainers

Objectives :

- Training Students to enhance and acquire skills to develop Soft Skills
- Develop Skills in Communication and Presentation Skills
- Develop Skills to Train others on the Aspect of Administrative skills

Total intake-30 students

Infrastructure required- A 500 sq. Ft area which has electric supply with proper ventilation
Required-LED projector, Blackboard/whiteboard, Clips, duster, movable chairs, closable doors, proper lights, Drinking water

Participants-Under Grad students

SYLLABUS

Workshop1

(5 hours)

Functional skills

COMMUNICATION SKILLS – Verbal and Nonverbal Communication, Facilitate Discussion, Skills used in Interview, Negotiation Skills, Public Interaction Skills and Team Work Dynamics

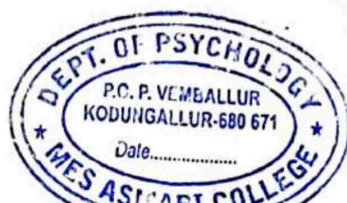

Orientation to the training and development

Building confidence - the dynamic self; self-as-object; self-as- knower; self-as-integrated- whole; and the 'selfless' self.

Workshop2

(5 hours)

Functional skills

HUMAN SERVICES - Interpersonal Skills , Knowledge of Group Dynamics, Ten core Life Skills, Empathizing , Counsel and organisation, Coaching Skills, Eye contact & Body language-Function. Features, Presentation, Observation Skills
 Effective communication –Training based on the context and Content
 (Peer group Session-1 hour, Assignment)

Workshop3

(5 hours)

Self-Management Skills

Skill 1. Time management, Skill 2. Self motivation , Skill 3. Stress management, Skill 4. Adaptability, Skill 5. Decision making, Skill 6. Goal alignment, Skill 7. Personal development.

(Peer group Sessions – 1 hours , Assignment, Mentor Training Sessions 2 hours)

Workshop4

(5 hours)

Flashback from the last session

Use of training tools – Introduction to Major Training Tools in Coaching : Learning Management Systems , Social Media, Learning experience platforms, Content authoring tools, micro-learning platforms, project management and planning tools.

Digital tools in training : Major Digital tools and its purpose.

Developing a training career

(Peer group Session-5 hours, Assignments, Mentor Training Sessions2 hours)

Assessment & Rules

Assessment Assignment	Assessment Quality	Marks
MOCK INTERVIEW & TOPIC PRESENTATION	The student should be able to perform both contexts	25 Marks
CONTENT MAKING & ESSAY SUBMISSION	The student creativity covering up all the content based on the Population	25 Marks

2022-23

REPORT AND OUTCOME

The Certificate course "Platform Skills " was inaugurated on 28th August 2022. Five workshops was conducted in Department of Psychology. Each workshop was with 5 hours sessions on different topics. All 76 students got above 80% Attendance. An Assignment was submitted by all students on the topic provided for assignment. All students submitted the Assignments very dedicatedly where they submitted all the topics very clear. The Essay Writing Examination conducted by the department clearly measured the minute value of all concepts studied. Mock Interview was practiced as an evaluation tool to understand the skill application level of students. Around all students gained above 80% score in the marks. The feedback of the course was recognized by the students performance in different platforms.

Course Description

Academic and research report writing is an essential activity for the academic community in higher education institutions. As part of the postgraduate programs, students have to submit a dissertation or project report in their last semester. Literature search and reference management are the two essential skills required in academic writing apart from writing skill. The proposed add-on course will discuss the basic concepts of literature search and reference management. This course intends to introduce the learner to various literature sources, search strategies and the norms for recording the information about sources and arranging them in the dissertation or project report. After the successful completion of the course, learners will be able to identify the required literature using different search strategies and provide proper documentation of referred sources in their research document.

Aims

- Identify types of information resources available
- To understand the structure of knowledge management
- Access the required information effectively and efficiently
- Evaluate information and its sources critically
- Use the information ethically to satisfy the information need
- Documentation of the sources in the research document

Learning Outcomes

Learners will be able

- To elicit the Knowledge management
- To identify the various types of resources in various formats.

- To know which bibliographic information is required to cite a source.
- To find documentation guidelines for various documentation styles.
- To know about plagiarism and software packages to detect it
- To interpret similarity reports
- To know online tools which help to conduct project effectively
- To use reference management software packages

Module 1: Information Resources and Knowledge management 10 hrs.

- Introduction to the Concepts of Data, Information, Knowledge and Wisdom
- Introduction to knowledge management
- Information resources for knowledge management
- Tracing information from reference sources; Literature survey for knowledge management.
- Reliable information sources on the web
- Types of searching techniques
- Using digital repositories for knowledge managers.

Module 2: Academic Writing and Communication 10 hrs.

- Citing and referencing
- Style manuals

- Ethics and plagiarism
- Plagiarism and software packages to check similarity
- Activities and assignments

Module 3: Reference Management software and other tools 10 hrs

- Mendeley Installation
- Building Mendeley Library
- Organizing documents in Mendeley
- Adding and managing references using Mendeley
- Hands on training

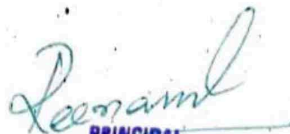

Evaluation Procedure:

Mock test and Hands on training

MCQ Test

LIBRARY

Certificate Course 2022-23

INFORMATION LITERATURE SURVEY AND REFERENCE MANAGEMENT

The certificate course for Library for literature survey started on 1.11.2022 for PG students. Online and offline classes are conducted. Searching and downloading techniques of journals and books are explained and practiced. Certificates were distributed to all the 76 students as they secured 90% attendance as required by the course. These course is helps to improve the quality of their projects works. The reference management software hands on training is very useful to students.

GENDER EQUALITY: MAJOR PERSPECTIVES
2022-23

Department	: Psychology
Name of Course	: Gender Equality Major Perspectives
Course Code	: ASCEP22
Coordinator	: Lathif Penath
Head of Department	: Lathif Penath
Maximum Number of Students	: 73
Duration of the Course	: 31 hours
Level	: UG/PG
Teaching Method	: Workshops
Teaching Aid	: LED projector, Blackboard/whiteboard, Clips, duster

Course Syllabus

Learning Objectives

1. To build a conscious group of students with regard to gender concepts.
2. To empower students with regard to the right ensured by the law.
3. To Bring Awareness among students with regard to all gender binaries.

DETAILED SYLLABUS

MODULE I: BASIC CONCEPTS

Gender Terminologies, Gender inequality, gender Differences, Gender Justice, Development of Gender Studies and its important.

(11 Hours)

MODULE II: GENDER ROLE ATTITUDES

Attitude towards men's and women's role, sexism: Traditional versus modern sexism, Hostile Vs Benevolent sexism, Gender role stereo typing, Attitude toward LGBTQIA+

(10 Hours)

MODULE III: GENDER EQUALITY INDIAN SCENARIO

Gender issues in modern India, Rights and laws, workplace Diversities, Empowerment of Gender minorities

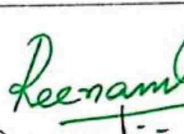

(10 Hours)

Assessment & Rules

Assessment	Assessment Quality	Marks
Written Examination	MCQ Question Examination	20 Marks
Assignment	The student should write an essay using creativity covering up all the content based on the Population	30 Marks

CERTIFICATE COURSE GENDER EQUALITY: MAJOR
PERSPECTIVES
2022-23

REPORT AND OUTCOME

The Certificate course "GENDER EQUALITY: MAJOR PERSPECTIVES" was inaugurated on 28th August 2022. Five workshops was conducted in Department of Psychology. Each workshop was with 5 hours sessions on different topics. All 73 students got above 80% Attendance. An Assignment was submitted by all students on the topic provided for assignment. All students submitted the Assignments very dedicatedly where they submitted all the topics very clear. The MCQ Examination conducted by the department clearly measured the minute value of all concepts studied. Around all students gained above 80% score in the marks. The feedback of the course was recognized by the students performance in different platforms.

KODUNGALLUR-680 571

Curriculum

Objectives:

1. To gain detailed knowledge about the classification of polymers and various mechanisms and technology for polymerization
2. To give a basic understanding of the properties of polymers like glass transition temperature, molecular weight and degradation of polymers.
3. To give a detailed idea about different commercial polymers.

Module I: Introduction (4 hrs)

Polymers and macromolecules – Monomers – Homo and hetero polymers – Copolymers – Classification based on origin synthesis (addition and condensation), structure (linear, branched chain and cross linked) and intermolecular forces (elastomeres, fibres, thermoplastics and thermosetting polymers)

Module II: Classification of Polymerisation (6 hrs)

Chain and step growth polymerizations – Free radical, ionic and coordination polymerizations with mechanism – Zeigler-Natta polymerization and its advantages – Ring-opening & group transfer polymerization

Module III: General Properties of Polymers (8 hrs)

Molecular weights of polymers: Average molecular weights – Number average, Weight average, Sedimentation average and Viscosity average molecular weight – determination of viscosity average molecular weight; Poly dispersity index and molecular weight distribution; Molecular weight and Degree of polymerization. Glass transition temperature – definition, factors affecting T_g, importance of T_g. Visco elasticity of polymers (Basic concepts only). Polymer Degradation: Basic idea of thermal, photo and oxidative degradations of polymers.

Module IV: Polymer preparation methods (6 hrs)

Polymerisation Techniques: Bulk, solution, suspension, emulsion, melt condensation and interfacial polycondensation polymerizations.

Module V: Polymer Processing Technique (6)

Calendering, rotational moulding, compression, injection moulding, blow moulding and thermoforming.

Recommended Books

1. V. R. Gowarikar, Polymer Chemistry, New Age International Pvt. Ltd., New Delhi, 2010.
2. B. K. Sharma, Polymer Chemistry, Goel Publishing House, Meerut, 1989.

4. K. J. Saunders, Organic Polymer Chemistry, 2nd Edn., Chapman and Hall, London, 1988.
5. Malcolm P. Stevens, Polymer Chemistry: An Introduction, 3rd Edn., Oxford University Press, USA, 1998. 7. Gowri Sankar Misra, Introductory Polymer Chemistry, New Age International, New Delhi, 1993

Evaluation procedure

- Assignments and assessments: The students will be given assignments and assessments to complete, which may include quizzes, exams, lab reports, and research papers. These assignments are designed to assess the students understanding of the concepts and principles of polymer science
- Practical skill assessment: the student will have to demonstrate practical skills learned during practical sessions through online mode. This may include the identification of everyday polymers by their physical properties, draw the structures of polymers etc.
- Final exam : The students will be assessed through a final exam, which may be a comprehensive exam covering all aspects of the course or a final research project

Report and Course Outcome

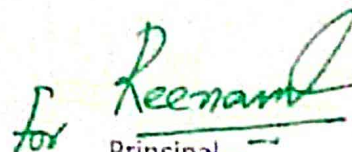

Certificate course in Introduction to Polymer Chemistry was conducted direct class room mode from 1st December 2022 to 21st January 2023. All the sessions were conducted in classroom mode. During the 30 -day course , a total of 64 students from different UG subjects participated in the program. The course on fundamentals of polymer science designed to provide students with an understanding of polymer laboratory organization and technique of synthesis of various polymers and its classification. In the evaluation, it was found that all the students qualified the examination and obtained more than 80% mark, which demonstrated that, a strong understanding of course material and course design. It was found that the students had achieved the objectives of the course in various ways. Some students depicted a strong understanding of theoretical aspects of polymer science, while others demonstrated in the practical implementation of techniques

Overall, the course was deemed successful in providing a comprehensive learning experience to the students, and they were able to apply their knowledge in different fields related to polymer science. By the end of the course, students were able to gained the desired outcomes successfully. Also a certificate of completion of the course was given to the qualified students.

Curriculum

Objectives:

1. To enable the students to get through competitive examinations.
2. To enable the students to acquire basics of grammatical usages.
3. Speaking, listening, Understanding, Reading, and writing in hindi

Module I

Introduction:

- Need of Skill Development
- Diagnostic test
- Parts of Speech

Noun

Determiners

Pronouns

Adjectives

Adverbs

Prepositions

Conjunctions

(10 Hours)

Module II

- Subject, Verb ,Object
- Verb - Different Forms of the Verb
- Concord- Subject and Verb Agreement
- Tenses

(6 Hours)

Module III

- Structure of Sentences & questions
- Active and Passive Voice
- Reported Speech
- Tag question

(4 Hours)

Module IV

What is skill development
Types of skill development
Speaking, listening, understanding, Reading, and Writing in hindi

(10 Hours)

Evaluation procedure

Diagnostic test in the beginning

weekly mock test in communication skills, language skills, social skills etc

This course offers communication and language skills that include.

Certificate course Communicative Skill Development in Hindi

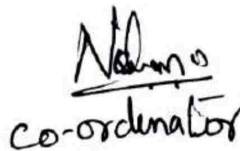

2022-23

Report and Course Outcome

The first batch of the certificate course of Communicative Skill Development in Hindi started on 5th January 2022. 10 sessions were conducted in room No.27 and the rest of the classes were conducted online through the platform Google meet as per the convenience of the students. A diagnostic test was conducted at the beginning of the course to understand the level of knowledge of the students. After the thirty hours of class, all the 50 students got above 90% score in the final test. Mock test conducted at the end of every week helped the students to appear for the final test. Hand outs were given to the students which helped them to do more exercises. Pair work and group work were given for better result. Certificates were distributed to all the 68 students as they secured above 90 percentage attendance as required by the course. The feedback of the course emphasises the fact that the learners were able to develop their communicative skills in Hindi.

Certificate Course in Fitness and Lifestyle Disease Management 2022-23

Curriculum and Evaluation Procedure

Department: Physical Education
Name of the Course: Certificate Course in Fitness and Lifestyle Disease Management
Course Code: ASCEP26
Coordinator: Lt. M.B.Bindil
Number of Students: 72
Duration of the Course: 30hrs
Level: UG
Teaching Methodology: Direct method, Practical
Teaching Aid: PPT, handouts

Curriculum

Objectives

- To create importance about health and fitness among youth
- To create awareness about management of common lifestyle diseases

Syllabus: Common lifestyle diseases: Diabetes, Hypertension, Back pain, Obesity, Coronary Heart Disease and its management .

Fitness, types of fitness, components of fitness- strength, speed, endurance, flexibility, coordination, agility.

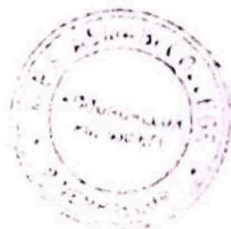

Health related physical fitness, performance related physical fitness, cosmetic fitness, Principles of fitness training.

Evaluation

Written and Practical test

Certificate Course in Fitness and Lifestyle Disease Management 2022-23

Report and Course Outcome

The certificate course Fitness and Lifestyle Disease Management was inaugurated on 19th September 2022. Ten sessions were conducted in class room and twenty sessions were conducted as practical. All the students got more than eighty percent attendance. Ninety percent students secured A grade and rest of the students secured B grade. The feedback of the course emphasizes that the students were able to enhance their general fitness level and knowledge about lifestyle disease management.

DEPARTMENT OF AQUACULTURE

**CERTIFICATE COURSE IN CLIMATE SMART
AQUACULTURE (2022-23)**

Department	: AQUACULTURE
Name of the Course	: Climate Smart Aquaculture
Course Code	: ASCEP 27
Name of the Coordinator	: Shibu A Nair (9846262611, sanair68@gmail.com)
Head of the Department	: Dr.Kesavan K (9495247407, kknambudiri@gmail.com)
Maximum number of students (Intake Capacity)	: 70
Duration of the course	: 31 hrs
Level	: UG

About the Course

The Certificate course looks at the climate-Smart Agriculture (CSA) concept from the perspective of the fisheries and aquaculture sector. Organized into six sections, the course provides an impression of the contributions made by the fisheries and aquaculture sector, the climate change impacts pathways that are affecting the sector and the vulnerabilities currently undermining resilience in aquatic systems. The ecosystem approach to fisheries and aquaculture (EAF/EAA) is presented as the underlying approach to developing climate-smart fisheries and aquaculture. Actions that support this approach are: sustainably increasing output productivity and efficiency within the sector; reducing the sector's vulnerability and increasing its resilience to change; and reducing and removing greenhouse gases (GHG) from within the sector. The module presents options for supporting these actions at different levels (national, regional, subsector, individual enterprise and community). The module concludes with an evaluation of the sector's progress towards CSA and the elements that support the successful transition to CSA.

The climate-smart approach and practices are trendy in aquaculture and fisheries sector. The contents are not a part of the curriculum of B.Sc. Aquaculture programme at present. Hence the course shall be supportive to the students of B.Sc. Aquaculture as the world is spans around reduction of carbon footprint.

The total number of students enrolled was 71, from departments of Aquaculture, Botany, Psychology and B Voc Fish Processing Technology.

Teaching Methodology:

1. Direct: ICT integrated Classroom Teaching.
2. Indirect: Participative - Virtual study groups and group discussions, local field trip.

Teaching Aids: PPT, Videos, Handouts, Links to web resources.

CURRICULUM AND ASSESSMENT PROCEDURES

Course Syllabus

Course Outcome:

- CO1: Define climate smart aquaculture (CSA).
- CO2: Understand the needs of CSA.
- CO3: List the benefits of CSA.
- CO4: Analyse CSA status in different countries.
- CO5: Apply CSA methods in aquaculture and fisheries.
- CO6: Assess Indian CSA.

Module 1: Introduction : The significance of fisheries and aquaculture. Climate change processes and impacts, People, communities and vulnerability. (2 Hrs.)

Module 2: Climate-smart approaches using sing EAF/EAA to build resilience to climate change. (2 Hrs.)

Module 3: Practical themes for developing climate-smart fisheries and aquaculture, Sustainably increasing output productivity/efficiency. Reducing vulnerability and increasing resilience. Specific issues for fisheries and aquaculture. Understanding and reducing vulnerability. Building resilience Reducing and removing GHGs. The role of the sector in reducing its emissions. The role of the sector in supporting the natural removal of emissions. The role of the sector in providing alternative energy sources. (10 Hrs.)

Module 4: Strategic climate-smart approaches for the aquaculture and fisheries sectors. National and regional level approaches .Strategic industry and subsector levels. Local and enterprise levels Individual and community levels. (10 Hrs.)

Module 5: Progress of fisheries and aquaculture towards CSA. (2 Hrs.)

Module 6: Transitioning to CSA. Indian scenario. (4 Hrs.)

SYLLABUS

- **COMPUTER FUNDAMENTS:**

Definition, history, generation & applications of computer- block diagram and working principle of computer – types of computer. **Introduction various OS, software & types of software. Introduction to computer hardware components – input devices, output devices, types of memory , CPU etc.**

- **MS WORD:**

Working with documents -opening , entering text , saving & closing files, editing text documents- select, move, copy , cut , paste, delete, find & replace, undo, redo, zoom in & out , spell check etc. Formatting text, pages, working with tables, charts , mail merge , proofing and printing documents – shortcut keys.

- **MS EXCEL:**

Spread Sheet & its Applications, Opening Spreadsheet, Editing Work sheet – insert , move, select, delete, copy , cut, paste , find & replace, redo, undo etc. Formatting cells- cell types, fonts, rotate, alignment, Merge & wrap , borders & shades. Formatting Worksheets: - Sheet options, Margin, orientation, page breaks, Freeze panes, conditional format. Inserting Chart, Working with formulas , simple & multiple IF, printing.

- **MS POWER POINT:**

Create presentation, adding - new slides, text, text boxes , slide notes, setting backgrounds, saving, review and running slide show. Editing and formatting presentation.

- **INTERNET AND E-MAIL.**

Concept of Internet , Search Engines , Downloading ,Printing, Understanding URL , Surfing the web , Using e-governance, social media website. Basics of E-mail Email Addressing , Using E-mails creating and Opening Email account, Creating and Sending a new E-mail , Replying to an E-mail message , Forwarding an E-mail message , Sorting and Searching emails.

Report on the Course: MS Office
Academic Year: 2022-23
MES Asmabi College, P. Vemballur

Coordinated by: Deepa K A

Duration: 30 hours

Number of Students: 44

Course Dates: May 22, 23, 26, 29, 30, and 31, 2023

Introduction:

The Research Department of Commerce at MES Asmabi College, P. Vemballur, organized a comprehensive course titled " MS Office " during the academic year 2022-23. The course aimed to provide students with an in-depth understanding of modern office automation tools and techniques to enhance their proficiency in various computer applications commonly used in office settings. Coordinated by Deepa K A, the course spanned 30 hours and accommodated a total of 44 enthusiastic students.

Course Schedule:

The course took place over a period of six days during the month of May 2023, with sessions held on the following dates: 22, 23, 26, 29, 30, and 31. Each session was carefully designed to cover different aspects of office automation, ensuring a comprehensive learning experience for the participants.

Course Syllabus:

The syllabus for the " MS Office " course was thoughtfully structured to encompass the fundamental concepts and practical skills required for efficient office operations.

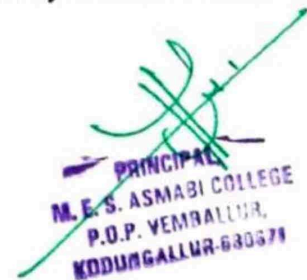

Conclusion:

The " MS Office " course conducted by the Research Department of Commerce at MES Asmabi College was a comprehensive and well-structured program that equipped participants with essential skills in various office automation tools and techniques. The coordination by Deepa K A, along with the well-defined syllabus and interactive sessions, contributed to a successful and enriching learning experience for the 44 students who participated. The knowledge gained from this course is expected to empower the students in their future professional endeavours by enhancing their efficiency and productivity in office-related tasks.

Head of the Department : Dr. Reena Mohamed

Maximum number of students : 80

Duration of the course : 30 hrs

Level : UG/PG

Teaching Methodology : Direct method, group discussions, Pair

Work, Mind Mapping

Teaching aids : Ppt, Handouts, Charts

Evaluation procedure : Diagnostic test in the beginning, weekly

mock test, final mcq test

Collaborating agency, if any : Nil

Project, Assignment, Internship:	Nil.
Date of Registration	: 20/08/2022
Tentative date of Course Completion	: 20/12/2022
Date of final exam	: 31/12/2022
Date of Issue of Certificate	: 25/03/2023

Course Syllabus

Add on Course on Introduction to Literary and Theory

Objectives:

1. To analyse texts within the discipline of English Literary Studies
2. To provide a comprehensive overview of the diverse framework of literary theory
3. To enable the students to engage with literature more critically.
4. To connect theoretical frameworks to the social, political and cultural contexts that underline them.

Module I

Introduction

- What is Literary Theory?
- Origins of Literary Theory
- Need and scope of Literary Theory
- Difference between Literary Theory and Literary Criticism
- Literary Theory across ages

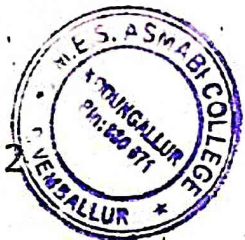

(5 Hours)

Module II

Classical Literary Theory

- Greek Tradition and Theory
- Contributions of Plato and Aristotle

(3 Hours)

Module III

Neo- Classical and Romantic Literary Tradition

- Key Tenets of Neo- Classicism and Romanticism
- Contributions of Samuel Johnson and John Dryden
- Contributions of Wordsworth and Coleridge

(6 Hours)

Module IV

Modern Literary Theory

- Feminism
- Postcolonial Theory
- Ecocriticism
- Psychoanalytical Criticism
- Marxist Criticism
- New Historicism and Cultural Materialism
- Queer Theory
- Race Studies
- Structuralism and Post Structuralism

(12 Hours)

Module 5

Practical Application of Theory in Literary Texts

(4 Hours)

Recommended reading

1. Peter Barry. *Begining Theory: An Introduction to Literary and Cultural Theory*

Basics of Research Paper Writing

Curriculum & Evaluation Procedure

2022-23

Department	: P G and Research Department of English.
Name of the Course	: Add-on Course : Basics of Research Paper Writing.
Course Code	: ASCEP25
Name of the Coordinator	: Mona V M, monamohan.v@gmail.com, 7736364688
Head of the Department	: Dr. Reena Mohamed P. M.
Maximum number of students	: 71
Duration of the course	: 30 hrs
Level	: UG and PG
Teaching Methodology	: Lecture, Assignments, Workshop, Group Discussion, Exercises , Think Pair Share
Teaching aids	: PPT, Handouts, Videos, Podcasts
Evaluation procedure	: Diagnostic test on basic grammar and usage in the beginning, mock research paper drafting test, final assessment on preparing well-crafted research paper and a test or submission of a research paper after the course
Collaborating agency, if any	: Nil

Teaching Methodology: Sample dissertation or a research article, assignments and presentations

Teaching Aids: PPT, Handouts and videos

Curriculum

Objectives:

1. To cultivate the desire to get intellectual joy of doing more creative work.
2. To equip the students to produce independent and competent research works of their own.
3. To expose the students to the importance of the ethics of research writing.
4. To enable students to face challenges in solving unsolved problems.

Introduction:

- Need and scope of FORP
- Diagnostic test

Module I

- Essential grammar and usage for crafting research papers- Punctuation- Spelling :
Common words that sound alike- That vs. Which-
- Basic Overview-Clarity of expression in writing- Objective nature of research- criteria of good research.
- How to frame title of your research paper -avoiding jargon and unnecessary complexity in diction.
- Choosing a topic- personal interest- stating the research gap.
- What is a research paper?

(6 Hours)

Module II

- Plagiarism and ethics in research
- Sources of Literature- Books and textbook material- Periodicals- Abstracts- Encyclopedias- Handbook and Guides-Special dictionaries-Dissertations and thesis- Internet
- How to organize a research paper?

First paragraph- Gap of Research- Thesis statement- Methodology- Second paragraph- Review of Literature- Body paragraphs-Conclusion- Works cited

- How to draft a dissertation?

Chapter-1- Introduction- First paragraph- Gap of Research- Thesis statement- Hypothesis- Methodology- Second paragraph- Review of Literature- available knowledge of the field- all the relevant published material in the problem- background of study- Body paragraphs- about the author-about the theory- about the select works.

Chapter-2

Chapter-3

Chapter-4

Chapter-5- Conclusion

Works Cited

(10Hours)

Module III

Citation Rules:

Introduction to the history of Modern Language Association and its Relevance

- MLA 9th : Basic Formatting and Style
- Core Elements in a works cited entry- Author-Title of source-Title of Container- other contributors- version- Number-Publisher-Publication Date-Location.
- In-text citation
- End-text citation
- Foot notes
- End notes

(14 Hours)

Add-on Course in Basics of Research Paper Writing

Report & Course Outcome

2022-23

Report of the Course:

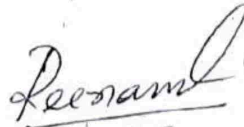

Add-on Course in Basics of Research Paper Writing commenced on 18.07.2022. All classes were handled offline. All students who attended the assessment procedures passed the course by submitting one sample research papers in the form of assignment. 92% was the average percentage of marks obtained by the students. Certificates were distributed after the completion of the course.

Course Outcome:-

- Increased level of knowledge and confidence in the area of research .
- Proper acquaintance with MLA documentation style and usage.
- Enhanced language competency through repeated editing.
- Improved research aptitude among students.

Overview of the Course:

Land-based sources account for the 82% of the total marine pollution. Pollution from vessels can take the forms of oil, chemicals, lost cargo and equipment, sewage, garbage, fumes and invasive exotic species. Dumping is the deliberate disposal of wastes at sea. Offshore activity generates minor pollution primarily through the use of oily drilling muds and by production blow outs. This course introduces the participants to the various aspects of marine pollution, and international rules and regulations pertaining to it. Direct and indirect hazards to organisms including humans due to pollution are covered.

Aquatic environments are increasing becoming receptacles for varied kinds of pollution. The contents of the curriculum of this course are not a part of regular curriculum set by the affiliating University. Hence the course shall be supportive to all students of the college as a value added course enhancing environmental consciousness.

Course Outcome: At the end of this course, you will be able to:

1. Define and distinguish different sources of marine pollution.
2. Aware of hazards due to aquatic pollution.
3. Identify global and regional agreements and initiatives addressing marine pollution.
4. Practice and advice do's and don'ts related to protection of aquatic environment.
5. Suggest mitigation measures for pollution and toxic effects.

Course Syllabus

MODULE 1

6 Hrs.

Marine Pollution-definition- role of GESAMP- major pollutant- sources, transport path, dynamics. Toxicology- lethal and sub lethal effects of pollutants to marine organisms- bioconcentration, bioaccumulation and biomagnifications. Factors influencing toxicity- synergistic and antagonistic effects.

MODULE 2

6Hrs.

Sewage pollution – Industrial, agricultural and domestic impact on marine environment, treatment methods. Detergents- composition- eutrophication and ecological significance- Plastics and Litter source and impact in the marine environment.

MODULE 3

6Hrs.

Heavy Metal pollution- sources, distribution, and fate. Pesticide pollution classification, sources, distribution, fate and ecological impacts with special reference to marine fishes, birds and mammals.

MODULE 4**6 Hrs.**

Oil Pollution- composition, sources, biological impacts on fishes, birds, mammals, . treatment techniques. Thermal pollution- sources - uses of waste heat rolē of biocides, chlorine ecological impacts. Radioactive pollution- sources (natural and artificial) biological effects of radiation.

MODULE 5**6 Hrs.**

Environmental monitoring methods for critical pollutants-objectives status limitations- biological indicators - natural bioaccumulations (mussel watch water quality assessment. Use of analytical instruments AAS, ICP, GLC, Spectrofluorometer for analyzing Petroleum hydrocarbon, Pesticides, Heavy metals etc.

OUTCOME OF CERTIFICATE COURSE IN COASTAL ZONE MANAGEMENT

Department : AQUACULTURE
Name of the Course : Coastal Zone Management
Course Code : MESACCC202030
Name of the Coordinator : Dr. Dhanya P R (9447467982,dhanyapulikkottil@gmail.com)
Head of the Department : Dr.Kesavan K (9495247407, kknambudiri@gmail.com)

Maximum number of students(Intake Capacity) : 40

Number of students enrolled : 69 (2 batches)

Duration of the course : 30 hrs

Level : UG

Teaching Methodology : Online Teaching

Evaluation procedure : The assessment involves MCQ. Attendance in classes was given due weightage. A minimum of 50% of marks in written tests is required for a pass. Minimum of attendance fixed is 75%. Total Marks: 100 (Test: max. 80 Marks, Attendance: 20 Marks). All the 40 students enrolled passed the test and was eligible for the certificate.

Date of Course Completion : 21/03/2023

Date of final examination : 25/03/2023

Date of Issue of Certificate : 29/03/2023

Course Outcome: At the end of this course students were able to:

1. Define and distinguish different sources of marine pollution.
2. Became aware of hazards due to aquatic pollution.
3. Practice and advice do's and don'ts related to protection of aquatic environment.

Certificate Course in Basic Understanding on Short Film Production

Course Code: CBUS 001

Curriculum

Introduction:

This course aims to introduce students to the skill set required for Short Film making. The course places special emphasis on personal Short Film projects, with the goal of the having practical application of theoretical knowledge. Students will gain hands on experience by creating Short Films and developing their own imaginative and creative mind. By the end of this course, students will have improved practical skills, and they would be able to pursue advanced work in Short Film making, covering a wider range of subjects.

Duration:

This course will be conducted and completed within 3 days duration.

Eligibility:

This course has no age limit and welcomes to all Film making enthusiasts, amateurs, and professionals as well. There is no need of submitting original mark sheet, but students would need to present it at the time of admission for verification purpose.

Medium of Instruction:

The medium of instruction for this course will be in English and Malayalam

Facilities for practical work

Headphone microphone, Speaker (Camera, Hardware & equipment) Desktop 12, Laptop 2, , Projector, Mobile, Canon camera, Tripod stand, Ahuja Microphone , Amplifier, Podium Microphone, Light reflector, Port light

Facilities for practical work (Software)

Adobe Premier Pro for audio- video editing, Photoshop, In Design

**Report and Outcome on
Certificate Course in Basic Understanding on Short Film Production
Course Code: CBUS 001**

The purpose of the report is to share experience, knowledge and outcome of the certificate course in Basic Understanding on Short Film Production. The report concludes with a review of the course and its benefits for the institution.

Three day certificate workshop programme on Basic Understanding on Short Film Production has been conducted on 1st, 2nd and 4th of June 2022, by MES Asmabi College in collaboration with Kites Foundation. The classes of the workshop have been led by Cyril Syriac, the creative head of Out of the Box and his team. The students from B.Voc Digital Film Production Department and the NSS Unit have participated in the practice oriented workshop. The purpose of the workshop was to teach the students how to independently produce short films within limited time.

Objective:

To gain and share knowledge on Advanced short film making.

Experience:

The entire programme was coordinated with the support of the Principal, the B. Voc Digital Film Production department and the NSS Unit of MES Asmabi College, P. Vemballur. Feedback: All the participants of the workshop have expressed their gratitude to the Out of the Box workshop team and Kites Foundation for making the workshop more practice oriented.

The training methodology includes: →

- Video tutorials
- Special lecture session by external experts
- Practical Sessions
- write your own screenplay

Outcomes:

Total Number of students who completed certificate course: 35

Students have gained extensive subject knowledge along with practical knowledge. Practical sessions enrich concept, and that will help students to practice Mobile Film Making in the institution.

Objectives:

To generate interest in Psychology

To make familiar the basic concept of the field of Psychology with an emphasis on applications of Psychology in everyday life.

To understand the basics of various Assessments in Psychology

To provide basic knowledge about systems and procedure like attention, learning and Consciousness.

To Provide Training in Case Study, case formulation and MSE.

Module 1 School Mental Health : 2 hours

Educational System in India, Student mental health in Educational setting, role of teachers, Study Habits, Stress related factors in school, Motivation and Performance in students.

Module 2 Developmental Psychology: Aspects of Student : 5 hours

Major Developmental Milestones, Factors affecting developmental stages. Delays in developmental milestones , developmental disorders – ADHD, Intellectual Development Disorder, Developmental Learning Disorder.

Module 3 Learning Disability: Aspects of Student : 5 hours

Types of learning disability, Dyslexia , Dysgraphia , Dyscalculia, Dyspraxia, Auditory Processing Disorder, Language Processing Disorder, Non Verbal Learning Disabilities, visual Perceptual – Visual Motor Deficit.

Module 4 Common Behavioural Issues in Childhood and Adolescence : 7 hours

Oppositional Deviant Disorder, Conduct Disorders, Management Techniques, General mental health issues (brief description of): Emotional problems: Separation anxiety, social anxiety. Behavioural problems: Temper tantrums, conduct disorders, risk taking behavior, bullying, alcohol and drug abuse. Other common mental health issues: Attention Deficit Hyperactivity Disorders, Learning Disability, Depression and self harm and Schizophrenia.

Module 5 Cognitive Skills : 3 hours

Attention , Memory , Thinking, Cognitive Skills Development.

Module 6 Case Management : 8 hours

Child Case History taking, MSE, Therapeutic formulation, Major Screening tools – VSMS, PGI Memory, Study Habit Inventory, Bhatia battery test of Intelligence, SPM, Conner's teacher rating scale for ADHD, NIMHANS SLD Battery.

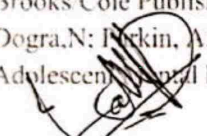

ASSESSMENT & NORMS

Assessment	Assessment Quality	Marks
Case Report	The student should present & Submit 5 case reports	50 Marks
Viva	Aviva examination will be conducted based on the course	50 Marks

Curriculum

Objectives:

- To enable students familiar with Android Application and Flutter
- To equip students to acquire advanced knowledge in Android Application Development to develop their academic project.

Android Application and Flutter

- **Module -1**
 - Need and Scope of ASCEP33
 - Diagnostic Test
 - Introduction to Android
 - Android SDK features
 - Android development frameworks
 - Android Applications Architecture.
 - Android Developing Tools
 - Developing for mobile devices
 - Running and Debugging
 - Creating new projects
 - Building apk
 - Running the project
 - Android life cycle
 - Creating applications and activities

- Concept of Activity
- Creating New Activity
- Fundamental android UI design
- Creation of TextFields, RadioButton, Button, EditText, TextView, Spinner etc
- Concepts of DatePicker, TimePicker
- Creating ProgressDialogs
- Creating AlertBoxes
- Task 1- Design a full registration form for the project
- Task 2- Design a Login Form For the project
- **Module – 2**
 - Getting data from form elements
 - Using getText()
 - Getting data from Spinner
 - Using getItem()
 - Task 1- Get and print all the data from Registration form
 - Task 2- Get and print all the data from login form
 - Introducing Intents
 - Passing data with Intents
 - Getting data using getIntent()
 - Introduction to Splash screen
 - Using Timer and TimerTask for creating Splash Screen
 - Coding the splashscreen
 - Task 1--- Design & create the splash screen for the project
 - Task 1- Connect the splashscreen , Login, Registration form all-together to a single project
- **Module-3**
 - Using MySQL Database
 - Basic Commands & Operations
 - Insert Operation With Android-PHP/MySQL
 - Delete Operation With Android-PHP/MySQL
 - Update Operation with Android-PHP/MySQL
 - Task 1-Registration form completion with PHP/MySQL
 - Connecting Login Form with Database
 - Task 2- Completion of Login Operation with Database
 - List Data from Mysql in Android
 - ListAdapters
 - Populate Android-List with MySql Data
 - Deleting data from Lists
 - Creation of Homepage for the project
 - Using Bottom Navigations & Other Navigation Options
 - Task 1- Create a Home Page with attractive designs for the project.
 - Task 2- Create a change password option with Update command for the project
 - Task 3- Create a complaints register page using Insert command for the project

- Task 4- Create a feedback sending operation using Insert command for the project.
- **Module - 4**
 - Using Camera
 - Capture Images
 - File Upload To Server
 - File Download From Server
 - Using Google maps
 - Create a Google Map Activity
 - Adding Google Map Keys
 - Using Location Markers
 - Types of Google Maps
 - Plot the current location in Maps
 - Search nearby places in Google Maps
 - Integrate Maps To Project

Report & Course Outcome

The Addon Course Android Application and Flutter (ASCEP3) started on 30th July 2022 in one batch for 3rd Year BCA students. The time was scheduled according to the convenience of the students with a duration of 2 to 3Hrs mostly on Saturdays. The lab works was done at the college lab. The batch started on 30th July 2022 and was completed on 5th November 2022. A diagnostic test was conducted at the starting to know the knowledge level of the students, and according to that analysis we arranged the course. After the completion, a final test was conducted and all the students secured good score in the test. Pair work and group work helped the students to improve the knowledge and skill level. Certificates were issued for all the students after the course as they passed the examination and secured more than 80% of the attendance. The course feedback is that the students can do their academic project given by the teacher in a better way.
