.One method the Alumni Association employs to promote institutional distinctiveness is by offering alumni networking opportunities. The association recently arranged a campus placement drive and internship for students, with 20 participants selected for Placement & Internship. By linking alumni with one another and with current students, the association fosters a strong sense of community and loyalty to the institution. This is particularly important in attracting prospective students and donors, as alumni who have a deep connection to their alma mater are more likely to speak positively about it to others.
