Certificate Course: Climate change, Sustainability and Biodiversity Management

Report:

The certificate course on Climate change, Sustainability and Biodiversity Management was started on 18/12/2019. As part of this certificate course, a total of 30 students from different streams were admitted, and all these students completed the course and qualified for certification. Both theory and practical sessions were used for the completion of the course. All the theory and practical classes were completed by March 10, 2020. The internal and external evaluations had been completed, and the results were published on March 17, 2020. A certificate of completion of the course was given to the qualified students.

Course Outcome (Focus on Employability/Entrepreneurship):

Students are enabled to work on natural resource management, biodiversity conservation, surveys and management. They can support projects envisaged for Grama Sabahas, BMCs of Panchayaths, Forest, Biodiversity departments along with any kind of biodiversity linked projects. Imparting knowledge about the climatic conditions, acquire knowledge related to biodiversity conservation and ecosystem management in the changing climate
