

PSO1. Fundamental understanding of the principles of Computer Applications and its connections with other disciplines.

PSO2. Procedural knowledge that creates different types of professionals related to Computer Applications, including research and development, teaching and industry, government and public service;

PSO3. Skills and tools in areas related to computer Applications and current developments in the academic field of study.

PSO4. Use knowledge, understanding and skills required for identifying problems and issues, collection of relevant quantitative and/or qualitative data drawing on a wide range of sources, and their application, analysis and evaluation using methodologies as appropriate to Computer Applications for formulating solutions.

PSO5. Communicate the results of studies under taken in Computer Applications accurately in a range of different contexts using the main concepts, constructs and techniques

PSO6. Meet one's own learning needs, drawing on a range of current research and development work and professional materials

PSO7. Apply Computer Science knowledge and transfer able skills to new/unfamiliar contexts

PSO8. Demonstrate subject-related and transfer able skills that are relevant to industry and Employment opportunities.
