

## **REPORT ON** *Report on Photography Camp for Coastal Area Students*

**Venue: Coastal areas of Kodungallur**

**Date: October 12, 2018**

The Photography Camp for coastal area students, conducted by renowned wildlife photographer V M Sadique Ali, took place on December 10, 2018. Organized by the Department of Digital Film Production, the event aimed to provide students from coastal regions with an opportunity to explore and enhance their photography skills.

A total of 23 students from coastal areas actively participated in the camp. Their involvement showcased a keen interest in photography and a desire to learn from the expertise of V M Sadique Ali.

The event commenced with an inaugural session led by V M Sadique Ali himself. His presence set an inspiring tone for the entire camp, motivating the students to engage passionately with photography.

Dr Ajims P Mohammed, in his presidential address, emphasized the significance of such initiatives in nurturing creative talents among coastal area students. His insights added an academic perspective to the practical aspects of photography.

Throughout the day, participants engaged in skill development sessions facilitated by V M Sadique Ali. Topics covered included wildlife photography techniques, composition, and the use of digital tools for post-processing.

The camp provided a hands-on experience with practical photography sessions. Students had the opportunity to apply the knowledge gained and receive real-time feedback from V M Sadique Ali.

*Outcome:*

The Photography Camp for coastal area students was a resounding success, fostering a learning environment that combined theory with practical application. The participants not only honed their photography skills but also gained valuable insights from industry experts. The initiative by the Digital Film Production Department and the enthusiastic participation of V M Sadique Ali contributed to making this event a memorable and enriching experience for all involved.
