Online Education

1. Does all programs/courses were completed on time.	Yes
2. Measures taken to complete the syllabus of courses and programs.	During the pandemic period the college purchased the learning management system Moodle, which is a platform capable of conducting tests, sharing notes, other materials etc. Edmodo, Telegram, Google Classroom and YouTube channels were also used to make the teaching learning process comfortable. Zoom and Google hangout were used to handle the live sessions effectively. Although offline classes, into the replaced with online classes, it was the need of the hour to handle the sessions without causing delay in the academic calendar. With proper planning and strategic approach the syllabus of all the courses and programs were completed within the stipulated time period, by making use of both synchronous and asynchronous methods. Teachers in the college usually try to complete the syllabus before time, so as to get ample time for remedial classes and revision. Very rarely some of the teachers could not complete the syllabus on time, because of the nature of some subjects or certain other specific reasons. When there is shortage of time there are certain basic methods adopted to make the process comfortable to the learners. In online mode, at first teachers choose the comparatively easy topics in the syllabus and complete them. It is always better to proceed from the known to the unknown and from the simple to the complex. Generally teachers field lowed the billingual method so as to make them more interactive. Participatory learning was promoted so as to avoid boredom. Teachers tried to focus on topics which are frequently asked in exam. Peer learning and evaluation was also promoted. It allowed flexible and personalized learning sessions, and remain available at pre-specified times to talk to the learners. Teachers analysed the e-content and e-resources for quality before referring these resources to the students. With digital/online learning, assigning tasks to students is a motivating and engaging factor, accordingly, these were also and mobile phones were propated. Alternative methods of assessment through online
