

Annual Report - Swachh Bharath 2018-19

On June 25, 2018, final year B.Sc. Botany students held an awareness class on plastic pollution and waste management for 70 Gramasabha members at Sree Narayanapuram Panchayath, Ward 21. The session emphasized the harmful effects of plastic pollution and promoted sustainable waste management practices. Through interactive presentations, discussions, and practical demonstrations, participants engaged in dialogue and expressed eagerness to adopt eco-friendly alternatives. The session concluded with positive feedback, highlighting the importance of continued efforts to raise awareness and implement solutions for mitigating plastic pollution's adverse impacts on the environment.
