Report of Career Guidance Class on Air Traffic Management (Online)

28th October 2023

Resource Person: Mr Anil

Coordinator: Mona V M, Career Guidance & Placement Cell

Total Students:47 (Maths and Physics)

Introduction:

On 28th October 2023, MES Asmabi College conducted an online career guidance class focusing on careers in Air Traffic Management. The session was facilitated by Mr. Anil, an expert in the field. The event was organized by Ms. Mona V M, Coordinator, Career Guidance & Placement Cell and attended by 47 students from the Maths and Physics departments. The primary goal of the session was to provide students with insights into the career opportunities and pathways in the field of air traffic control, and to inform them about the skills and qualifications required for this profession.

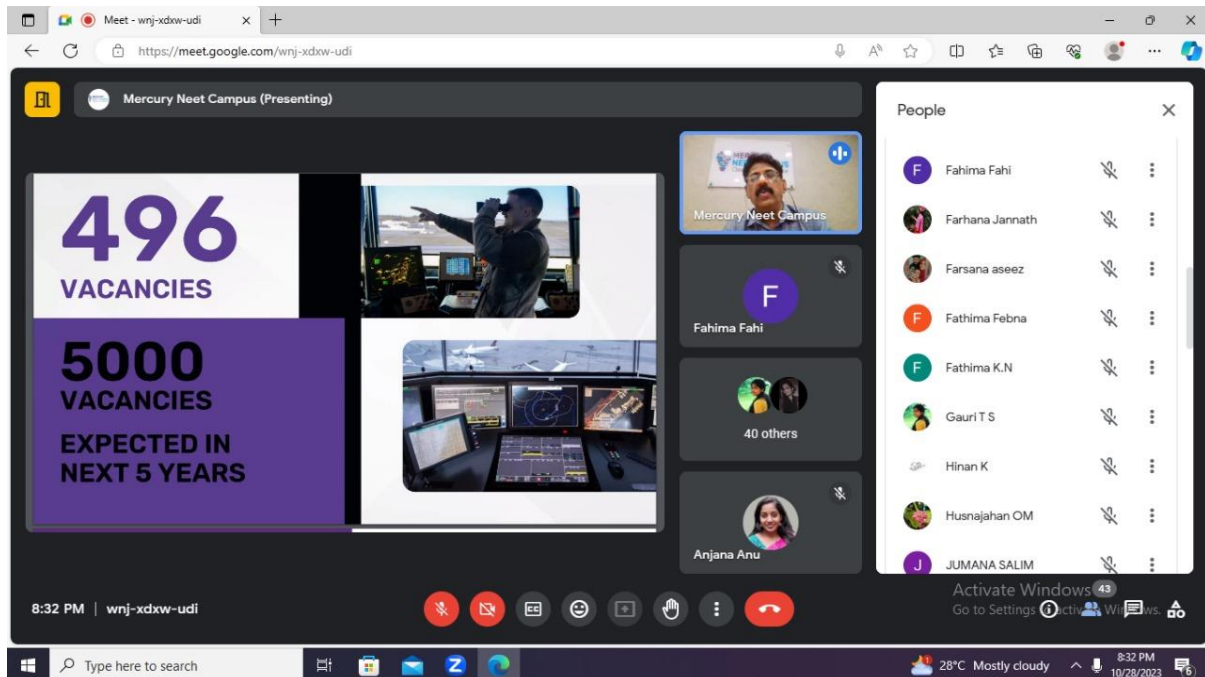

DGCA, DIRECTOR GENERAL OF CIVIL AVIATION

- Regulation of air transport services to/from/within India and for enforcement of civil air regulations, air safety, and airworthiness standards.
- The Bureau of Civil Aviation Security is the designated agency of Govt. of India under the Ministry of Civil Aviation for making regulations, procedures and issuing directions covering the security aspects of aircraft operations and airports in India.
- All airlines are working under the guidance and regulation of DGCA.
- Airports authority of india is also working under DGCA & civil aviation

Session Details:

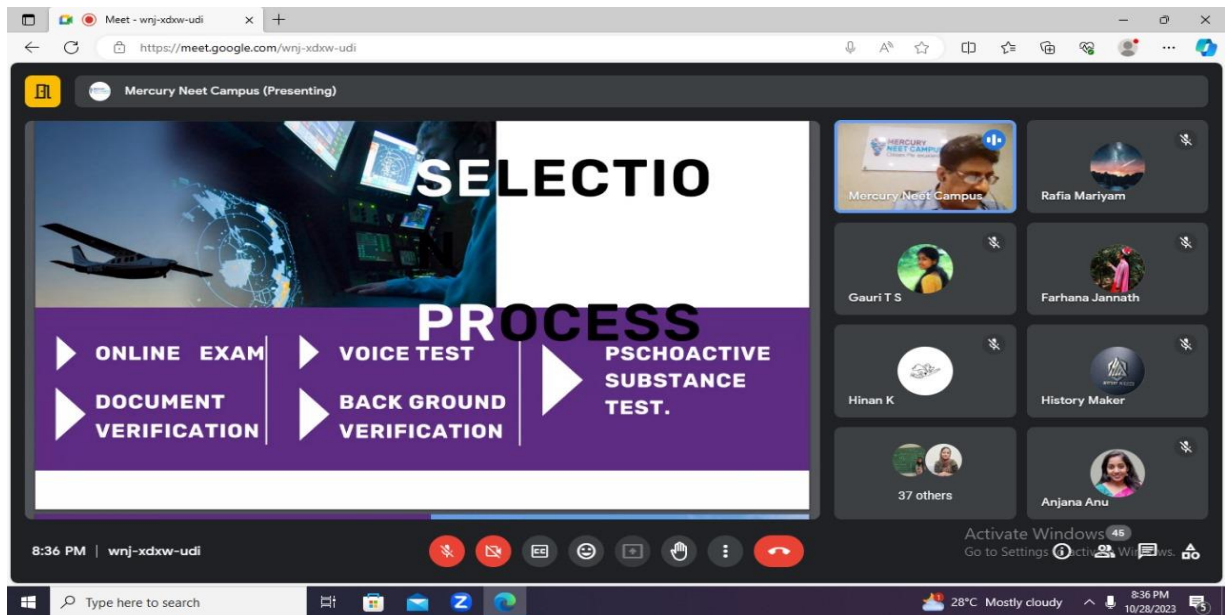

Ms. Mona V M started the session with a welcome address, introducing Mr. Anil and setting the context for the discussion. Mr. Anil began by explaining the role of an air traffic controller, emphasizing the importance of this position in ensuring the safety and efficiency of air travel. He highlighted the responsibilities and daily tasks involved in air traffic control, providing a comprehensive overview of the profession. Various career paths within air traffic control were discussed, including positions such as tower controllers, approach controllers, and en-route controllers. Mr. Anil explained the different levels and specializations within the field, and the potential for career advancement.

The session covered the essential skills needed for a successful career in air traffic control, such as strong communication abilities, quick decision-making, and the capacity to work under pressure. Mr. Anil detailed the educational requirements and certifications necessary, highlighting relevant courses and training programs. Information on the training process for air traffic controllers was provided, including details on the selection process, training duration, and the curriculum of training programmes. Mr. Anil mentioned key institutions and organizations that offer training and certification for aspiring air traffic controllers.

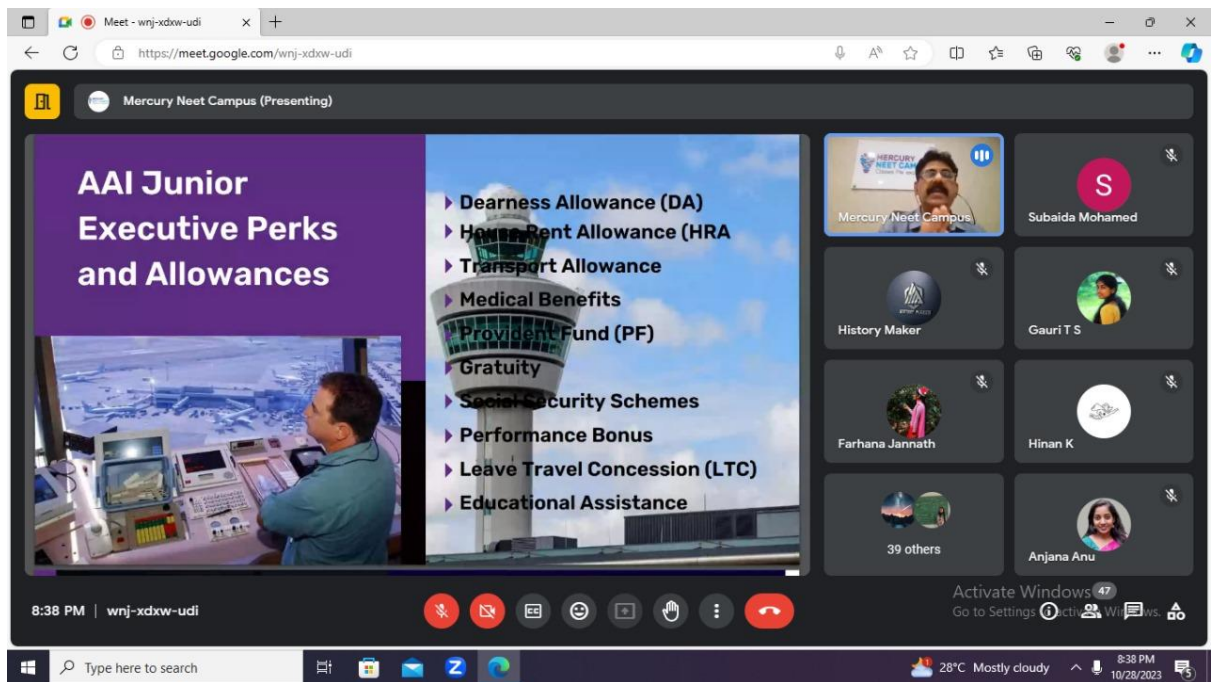

Future Prospectus

The session explored the job market for air traffic controllers, discussing both national and international opportunities. Mr. Anil shared insights on the employment outlook and potential salary ranges for different roles within air traffic control. Students actively participated in a Q&A session, where Mr. Anil addressed their queries about career prospects, the application process, and the challenges faced in the profession. Specific questions related to transitioning from academic studies in Maths and Physics to a career in air traffic control were discussed.

Mr Anil Detailing Selection Process

Slide on Allowances

Mr. Anil shared his personal journey and experiences in the field, offering practical advice and tips for students aspiring to enter this profession. The session concluded with a vote of thanks delivered by Ms. Anjana Anu, who expressed gratitude to Mr. Anil for his informative presentation and to the students for their enthusiastic participation.

The online career guidance class successfully provided students with a detailed understanding of the air traffic control profession, including the career pathways, required skills, and training opportunities. The session inspired students to consider careers in air traffic control and equipped them with the knowledge needed to pursue this field.
