

INNOVATIVE TEACHING METHODS

MS. SABITHA M M, DEPARTMENT OF ENGLISH

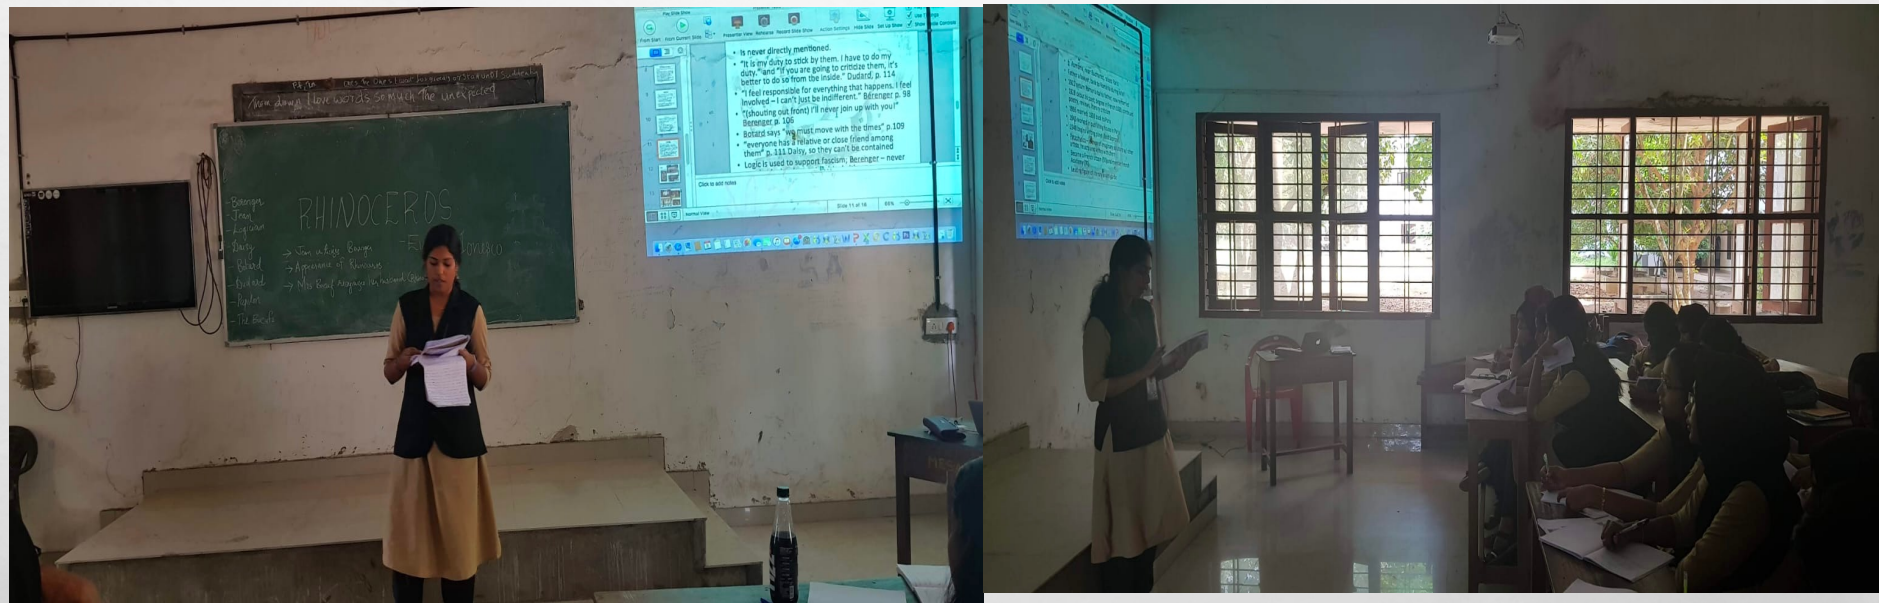

MES ASMABI COLLEGE

PEER TEACHING

Peer teaching involves students taking on the role of both the teacher and the learner, creating a dynamic and interactive learning environment. II MA English students shared their understanding of the topic “Rhinoceros” with their peers. This process helped to reinforce their own understanding and provided an opportunity to clarify concepts. Both the student teaching and the student being taught actively engaged in the learning process. This hands-on approach often leads to better retention of information.

PEER TEACHING

III Semester MA English Students engaged in peer teaching.
