Report of 'Experia,' e waste collection held at Puthumanaparambu Ward 14

I BA English and II MA English students along with Dr Amitha P Mani, Ms Jameelathu K A, Dr Sakkeena M K and Ms Reshma collected electronic waste from Puthumanaparambu Ward 14. The ward member Ms Souda gave word that she would inform all the families through the whatsapp group of the ward. The group reached Puthumanaparambu centre at 10 am and after dividing the groups and giving the instructions, the collection was started. Four groups in which one teacher and a few students were formed and all the groups dispersed to various sides of the ward. Each group covered about 50 houses and got items like switch boards, LED Televisions, chargers, mixer grinder and a few other electronic items. A few people complained that they were not informed by the ward member. Most of the families gave good responses to the venture. A few people said that they would give the e waste for money. The collection was completed by afternoon. The students liked the programme that involves social commitment.
