

Report of 'EXPERIA' E WASTE COLLECTION held at SN Puram Ward Santhipuram

Date 28-02-2023

Venue: SN Puram Panchayath

Second year UG students of Digital Film Production along with Mr. Sachin C S collected electronic waste from SN Puram Ward Santhipuram. The ward member Ms Jasmine had informed all the families about the E waste collection through the whatsapp group of the ward. Students gathered at *Poribasara* around 9.30 am.

The Ward Member Jasmine is not able to reach the venue, but with the help of the local neighbors the team got the idea of the routes we have to cover. After dividing the groups and giving the instructions, the collection started around 10 am. Three groups with 4 students were formed and all the groups dispersed to various sides of the ward. There were around 50 houses in that locality and accordingly each group was instructed to cover these houses.

The students collected Mixer grinder, coolers, switch boards, emergency lamps, chargers, mobile phones, chargers, speakers and other electronic items. Most of the families cooperated with us. The collection was completed by 12.45 pm. After giving a small refreshment the group was dispersed. It was a good experience for our students.
