REPORT ON THE MASTERS' RESEARCH PRESENTATION OF MSC BOTANY STUDENTS (2019 ADMISSION)

Date: August 7, 2021

Time: 2:00 p.m.

Venue: Online Platform (Google Meet)

Introduction:

The Masters' Research Presentation of the MSc Botany students, who were admitted in 2019, was conducted on August 7, 2021, through an online platform - Google Meet. This event was organized by the PG & Research Department of Botany. The program aimed to provide a platform for the students to showcase their research work and enhance their presentation skills. The event was graced by several distinguished guests and faculty members.

Inauguration:

The program commenced with an inauguration ceremony, which was conducted with grace and enthusiasm. Dr. A. Biju, the Principal of MES Asmabi College, had the honor of inaugurating the event. His presence added a prestigious touch to the occasion, inspiring the students to excel in their academic pursuits.

Guests and Dignitaries:

Several eminent guests and faculty members graced the event, making it an enriching experience for the students. The special guests included:

- Dr. Shafeer P.S, IQAC Coordinator
- Dr. K.H Amitha Bachan, Research Nodal Officer

- Dr. Dhanya P.R, Assistant Professor, Department of Aquaculture
- Former HoDs of the Botany department, Dr. K.M Mohamed Nasser and Dr. V.M Asma

Smt. Shaheedha T.M, Head of the Botany department, presided over the function, symbolizing the department's support and guidance throughout the students' academic journey.

Student Presentations:

Sixteen students who were part of the MSc Botany program presented their dissertations through MS PowerPoint. These presentations covered a wide range of topics, showcasing the diversity of research within the field of Botany. The subjects of presentation included Taxonomy, Physiology, Phytochemistry, Phycology, Ecology, and Ethnobotany. The students' hard work, dedication, and knowledge were evident in their presentations.

Expert Discussions:

After each student's presentation, the experts engaged in detailed discussions, providing constructive feedback and insights. These discussions were highly beneficial for the students, as they received expert opinions on their work, which will undoubtedly help them improve their research further.

Outcome:

The Masters' Research Presentation proved to be an invaluable learning experience for the students. It provided a significant platform for them to enhance their presentation skills and gain confidence in presenting their research findings. The event also helped the students overcome performance anxiety, as they received constructive feedback from experienced experts in the field of Botany.

Conclusion:

The Masters' Research Presentation of MSc Botany students (2019 admission) was a resounding success. The event was a testament to the commitment and dedication of both the students and the faculty in the PG & Research Department of Botany. The presence of esteemed guests and experts added significant value to the program, making it an event to remember. The students' impressive presentations and the insightful discussions from the experts underscored the department's dedication to fostering research and academic excellence.

The event's success reflects positively on the future of Botany research and the academic journey of the MSc Botany students at MES Asmabi College. This initiative provided a great opportunity for the students to demonstrate their research acumen and contribute to the advancement of the field of Botany.

We look forward to more such events that encourage and promote research and academic excellence in the future.
