

Department of Mathematics

Pothichor distribution - An Outreach Program

Department of Mathematics and statistics in association with 'Karuthal kootayma, Kodungallur' had organized a food distribution to street people which is a charitable initiative of the department aimed at providing lunch to individuals who are experiencing homelessness and living on the streets.

Our students brought lunch packers from their home and we had collected 70 lunch packets. 7 students along with 2 teachers reached Kodungallur at 12.10 pm and Street People were waiting us. Karuthal Kootayma Members reached there at 12.20 pm. After a small official talk packets were distributed.

The purpose of this food distribution to street people is to address immediate hunger while also showing compassion and support to those who are less fortunate. It can also serve as an opportunity to engage the students with homeless individuals, build relationships, and offer assistance in connecting them to other essential services.
