

Two Days Workshop on English Language Skills

Introduction

The Two Days Workshop on English Language Skills was organized on 12th and 13th January 2023 for first and second-year BVOC Fish Processing Technology students of MES Asmabi College, P. Vemballur. The workshop aimed to equip students with essential language proficiency required for academic success and professional growth.

Objectives

- To enhance students' proficiency in English language skills, including grammar, speaking, and writing.
- To provide students with practical knowledge and strategies for effective communication in academic and professional settings.
- To create a platform for interactive learning and active participation among students.
- To empower students with confidence and competence in expressing themselves fluently and accurately in English.

Description

Ms. Mona V. M., Assistant Professor in the Department of English at MES Asmabi College, P. Vemballur, served as the resource person for the workshop. The two-day workshop commenced with sessions focusing on fundamental grammar rules and concepts. Through interactive discussions and exercises, students gained a deeper understanding of grammatical structures and usage.

The second day of the workshop emphasized speaking and writing skills. Ms. Mona facilitated activities and exercises aimed at improving students' oral communication abilities. Students engaged in role-plays, group discussions, and speaking exercises to practice expressing themselves fluently and confidently in English. Additionally, writing skills sessions covered academic writing formats such as letters, communications, and essays, providing students with practical guidance on effective written communication.

Throughout the workshop, students actively participated and interacted with the resource person, seeking clarification and feedback on language-related queries. Ms. Mona provided personalized guidance and encouragement, fostering a supportive learning environment conducive to students' language development.

Conclusion

The Two Days Workshop on English Language Skills proved to be a valuable learning experience for BVOC Fish Processing Technology students. Through comprehensive sessions on grammar, speaking, and writing skills, students gained essential language proficiency necessary for academic and professional success. The interactive nature of the workshop facilitated active learning and engagement among students, empowering them with confidence and competence in English communication. The workshop concluded with students expressing gratitude for the enriching experience and a renewed commitment to applying their newfound skills in their academic and professional pursuits.
