

Webinar Series - Exploring the Experienced: A Space for Listening to Wonderful Researchers Cum Academicians About Their Ocean Experience

Introduction

The Fish Processing Technology Department of MES Asmabi College, P. Vemballur, organized a webinar series titled "Exploring the Experienced" from 13th to 15th September 2021. The series aimed to provide students with insights into various aspects of marine resources through lectures delivered by experts in the field.

Objectives

- To expose students to the experiences and expertise of renowned researchers and academicians in the field of marine science.
- To enhance students' understanding of diverse topics related to marine resources, including deep-sea fishes, oceanography, and polar research.
- To inspire students to explore career opportunities and research avenues in the field of marine science.
- To foster interaction and engagement between students and experts through informative lectures and discussions.

Description

The webinar series consisted of three sessions, each featuring a distinguished resource person specializing in different aspects of marine science.

Day 1: 13-09-2021, Monday

Resource Person: Dr. Aneesh Kumar K. V., Assistant Professor & Head, Department of Aquaculture, Sacred Heart College (Autonomous), Thevara

Topic: Deep-sea fishes: Diversity, Biology, and Ecology

Day 2: 14-09-2021, Tuesday

Resource Person: Dr. Shaju S. S., Assistant Professor, Department of Chemical Oceanography, CUSAT

Topic: Ocean and Carbon

Day 3: 15-09-2021, Wednesday

Resource Person: Dr. Minu P., Researcher, ICAR-CMFRI

Topic: Indian Expedition to Polar Regions

Each session provided students with valuable insights into the respective topics, allowing them to broaden their knowledge and perspective on marine science. The interactive nature of the sessions encouraged students to actively engage with the resource persons, asking questions and seeking clarification on various aspects of the presentations.

Conclusion

The webinar series "Exploring the Experienced" served as a platform for students to learn from esteemed researchers and academicians about their experiences and expertise in the field of

marine science. Through informative lectures and discussions, students gained valuable insights into diverse topics related to marine resources, inspiring them to explore career opportunities and research avenues in the field. The series concluded with students expressing gratitude for the enriching experience and a renewed enthusiasm for further exploration in marine science.
