

## Report on "Plant 4 Mother" Campaign Seminar

**Organized by:** WDC

**Date:** September 2, 2024

**Time:** 2:00 PM

**Venue:** Seminar Hall

On September 2, 2024, WDC hosted a seminar titled "Plant 4 Mother," aimed at promoting awareness about the importance of planting trees and caring for the environment. The event highlighted the crucial role of plants in sustaining life on Earth and encouraged attendees to actively participate in tree-planting initiatives.

### Resource Person:

Ms. Shemi CB, Assistant Professor from the Department of Botany, served as the resource person for this enlightening seminar. Her extensive knowledge and enthusiasm for environmental conservation inspired the participants. Ms. Shemi C B emphasized the importance of protecting our planet and how small actions, like planting a tree, can significantly impact environmental health.

### Key Points Covered:

1. **Significance of Trees in Ecosystem Health:** Ms. Shemi highlighted the vital role that trees play in absorbing carbon dioxide, releasing oxygen, and providing habitat for various organisms.
2. **Environmental Impact of Deforestation:** The consequences of deforestation, such as global warming, soil erosion, and loss of biodiversity, were discussed.

3. **Benefits of Tree Planting for Future Generations:** Planting trees today ensures that future generations inherit a healthier, greener planet.
4. **Steps to Get Involved:** Practical advice was provided on how individuals can get involved in environmental conservation, including how to participate in local tree-planting drives.

**Outcome:**

The seminar was well-received, with active participation from students and faculty members. Many attendees expressed a renewed commitment to environmental conservation, and some pledged to plant trees in their communities. Ms. Shemi's presentation successfully motivated the audience to view tree planting as a personal responsibility toward preserving Mother Earth.
