Mastering Oral Skills for Communication 2024-25

MOSC 25 - Report and Course Outcome

The certificate course *Mastering Oral Skills for Communication* (MOSC 25) commenced on 5/1/2025. Thirty sessions were conducted in **Room No. MG15**, and additional interactive sessions were held through the **Zoom platform** to ensure greater participation. A diagnostic test was administered on the first day to assess the initial oral proficiency of students.

A total of **49 students** enrolled in the course, with an attendance rate exceeding **80%**. The course focused on enhancing fluency, pronunciation, and confidence in public speaking. Various exercises, including extempore speeches, debates, and storytelling, were integrated to help students overcome stage fear and refine their communication skills.

Periodic assessments, including mock speeches and listening comprehension tests, were conducted at the end of each week to track student progress. The final assessment revealed that **90% of the students achieved significant improvement, securing A+ grades**, while the remaining **10% secured A grades** based on their performance.

The overall outcome of the course was highly positive, ensuring that learners were well-equipped to engage in effective oral communication in various contexts.
