

## **Report on the Seminar on Biodiversity Conservation and Climate Change Resilience**

Organized by: Biodiversity Club, MES Asmabi College

Date: September 26, 2024

Venue: MES Asmabi College

Resource Person: Dr. Amitha Bachan K.H, IUCN Specialist

Programme Coordinator: Dr. Ebitha Egbal

### **Introduction**

The Biodiversity Club of MES Asmabi College organized a seminar on 'Biodiversity Conservation and Climate Change Resilience for a Sustainable World' on September 26, 2024. The seminar aimed to raise awareness about the importance of biodiversity conservation and strategies to enhance climate change resilience.

### **Objective of the Seminar**

- To highlight the significance of biodiversity conservation in mitigating climate change.
- To discuss strategies for building resilience against climate change.
- To promote sustainable practices among students.

### **Keynote Address**

The session was led by Dr. Amitha Bachan K.H, a renowned IUCN Specialist, who shared insights on:

- The critical role of biodiversity in maintaining ecological balance.
- The impact of climate change on various ecosystems.
- Conservation strategies and sustainable practices to mitigate environmental challenges.

Dr. Bachan emphasized the need for community participation and policy-driven approaches to biodiversity conservation. He also discussed successful case studies demonstrating resilience-building efforts in different regions.

### **Programme Highlights**

- Interactive discussions on conservation efforts and policy-making.
- Case studies on biodiversity protection and climate adaptation.

- Q&A session where participants engaged with Dr. Amitha Bachan on various environmental concerns.

### Conclusion

The seminar provided valuable knowledge on the interconnectedness of biodiversity and climate change. It encouraged students and faculty to take active steps toward conservation and sustainability. The event concluded with a vote of thanks, appreciating the resource person, participants, and organizers for their contributions.
