### "Master Digital Film Production at MES Asmabi College"

The Digital Film Production department at MES Asmabi College, established in 2018, offers the exclusive B.Voc Digital Film Production program under the University of Calicut. This three-year vocational degree emphasizes practical skills essential for careers in cinema, TV, and advertising.

The program features hands-on training with industry-standard equipment like digital cameras, Steadicams, and green screens. Students benefit from a blend of theory and practice through lectures, workshops, and independent projects, supported by advanced labs with the latest editing software. The department also houses Asmabi Media, a production unit that offers students opportunities to earn by handling event photography and videography.

### Placement Opportunities

- Industry Collaborations: Tie-ups with three major companies in the media industry.
- Guaranteed Selections: At least 15 students recruited during each placement drive.
- Proven Success: 25 students placed in the last two years through departmental efforts.

**A Cinematic Journey Organized by Students and Inaugurated  
by Industry Luminaries**

## Scope of the Course

Completing a Digital Film Production course opens up various career opportunities such as becoming a filmmaker, director, cinematographer, film editor, screenwriter, producer, sound designer, or visual effects artist. It equips students with technical skills in camera operation, lighting, editing software, scriptwriting, storyboarding, sound design, audio editing, and visual effects creation. Additionally, graduates gain industry knowledge in film production processes, budgeting, scheduling, team collaboration, and project management, enabling them to effectively oversee and contribute to film projects from inception to completion.
